what
has
television
done
for
newspaper
reading?

Survey shows that TV INCREASES it!

For the fourth year in a row the Cunningham & Walsh independent "Videotown" survey shows that television set owners are spending more time with their newspapers than ever before!

It is clear that every medium—including TV, the newcomer—simply whets people's appetites for the full story.

In their newspaper they'll find the whole story about the fight they saw on TV last night. They'll read about the entertainers they watched . . . the debate they saw . . . or the educational program that was so interesting.

No matter what the source of news may be—an angry dictator across the sea, an earthquake in Mexico, a tennis match in Australia, a fire downtown, or a TV program in the living room—it's the newspaper that tells it all.

No wonder people are reading their

newspapers more! No wonder advertisers are finding newspapers more productive than ever before!
