

# STORMS END EAST HEAT WAVE

## In The Day's News

**By FRANK JENKINS**  
Secretary Dulles returned by plane this morning from Paris to Washington. At the Washington airport he told reporters that the West has found a formula (a formula is a recipe) for constructive allied unity in dealings with the communists.

I know a guy who has three good recipes but can't make camp biscuits that are fit to eat.

Secretary of Defense Wilson says today that the Pentagon in the last four months has tightened up on security all along the line, but without infringing on the rights of individuals.

He recalled that last April the Pentagon issued new regulations designed not only to rid the services of undesirable security risks who might be in the armed forces but also to block off at all points the entry of such persons into the military services.

He added that there has been a revitalization of the entire department from the top echelons down.

**Good work!**  
The best recipe for handling communists in government is DON'T HIRE 'EM IN THE FIRST PLACE. If your foot slips and you hire one by mistake, FIRE HIM!

**Quick!**  
And without politics.

Speaking of the armed services: The Coast Guard has decided to go after the five men who started out last week to DRIFT ON A RAFT from California to Hawaii.

The drifting didn't go so good and at last accounts they were barely out of sight of the California coast and were in bad trouble, with the raft said to be breaking up.

I'm afraid that use of the Coast Guard in this instance isn't according to protocol.

Don't the men that are sent out to round up loose-nut screwballs usually wear white jackets?

Casual note, via the teletype, from Alabama:  
The attorney general of Alabama, St. Garrett, suffered a broken neck and other injuries in a hit-and-run collision last night. His car apparently was knocked off the road by a truck, which didn't stop after the accident.

Garrett is at present under indictment on vote fraud charges. Last month a man nominated to succeed him as attorney general was slain.

Don't they have ANY honest people down there?

Overheard in our coffee shop this morning:  
The cook: "The eggs I've been getting in the past week are all rotten and some of them are all out of shape."

A teletype operator: "Maybe the hens are all worn out with the heat and don't pay much attention to their work."

It's pretty warm this morning. If this column isn't up to snuff, maybe that's the reason.

## Allies Said Agreed On Asian Policy

WASHINGTON (AP) — Secretary of State Dulles returned from three power talks at Paris Thursday saying "we have found a formula for constructive Allied unity" which will strengthen the anti-Communist position at negotiations on Indochina peace.

Dulles flew to Paris Monday night and held emergency consultations with British Foreign Secretary Eden and French Premier Mendes-France. One of his decisions was that Undersecretary of State W. B. Smith should go to the Geneva conference to participate in the final round of talks with the Reds on Indochina. Smith will leave late Friday.

**U.S. PARTICIPATION**  
Diplomats here believe that Dulles would not have agreed to send Smith to Geneva to provide high level U.S. participation in the conference unless he had assurance from Mendes-France ruling out a peace at any price settlement.

In a statement upon his arrival here at 9:30 a.m. EDT, Dulles said the Paris talks "have brought about an understanding concerning Indochina much more complete than has heretofore existed."

This, he added, enabled the Western ministers "to demonstrate anew the solidarity of the Western powers in the face of Communist hostility and intrigue."

Dulles went immediately from the airport to the White House to report to President Eisenhower.

**IKE CONFERENCE**  
At the White House Dulles conferred with the President privately for 20 minutes. Then both went to the meeting of the National Security Council, which was holding its regular weekly session.

Dulles said the formula for Allied unity was achieved without any abandonment by the United States of its principles. Eisenhower and Dulles have repeatedly stated that the United States would not sanction Red conquest of any area.

"The United States has been concerned," Dulles said, "to find a way whereby it could help France, Viet Nam, Laos and Cambodia find acceptable settlements without in any way prejudicing basic principles to which the United States must adhere if it is to be true to itself and if the captive and endangered peoples of the world are to feel that the United States really believes in liberty."

## French Posts Fall To Reds

HANOI, Indochina (AP) — Two French defense outposts fell before Vietminh attackers as monsoon rains came to the Red River delta Wednesday night.

Vietnamese defenders abandoned the post of Chiquan, 25 miles west of Hanoi, after a brief fight against 400 to 500 Vietminh attackers, a French briefing officer reported. Thirty-five miles northwest of Hanoi, a second small post on the edge of delta defenses crumpled under another Vietminh attack.

The briefing officer said Vietnamese defenders of both posts were beating their way back to Son Tay through guerrilla-infested territory inside the French defense line, northwest of Hanoi.

Thirty miles northeast of Hanoi the camp 100 man garrison at Camp Hulan stood off 500 Vietminh with the aid of low-flying planes that strafed, bombed and napalmed the attackers. A half dozen other small posts beat back Vietminh attacks Wednesday and Wednesday night, the briefing officer added.

Lack, 45, playboy head of a New York air-conditioning firm, met Dr. Small's wife Edith, 30, while she and her three children vacationed in Florida last winter. Her husband had remained in Detroit.

Mrs. Small testified Tuesday that she fell in love with Lack and asked her husband for a separation and divorce.

Defense Atty. Leo Hoffman said Dr. Small was blinded by anger because he felt Lack was "just making a toy" of Mrs. Small.

Dr. Small, held at the Allegan County Jail pending trial, told reporters he once warned Lack by telephone to stay away from Mrs. Small but Lack just laughed at him.

Dr. Small's father Jacob, a retired bricklayer, collapsed with a heart attack while waiting to take the stand yesterday. Taken to a hospital, his condition improved. He begged to testify but doctors advised against it.

Hoffman, opening the defense yesterday, pictured Dr. Small as a "desperate man, unable to control himself."

"Because of an irresistible impulse from which he couldn't restrain himself, he shot Jules Lack," Hoffman asserted. "We will prove that at the time he was insane. He was desperate."

## Union Wage Conferences Collapse

**By THE ASSOCIATED PRESS**  
No further peace meetings were on schedule in the Pacific Northwest lumber strike Thursday, following collapse of the latest in the latest negotiations.

The last session in this week's round of negotiations, arranged by the Federal Mediation Service, broke up Wednesday in acrimony.

Hoppe, born in a union request to continue talks past the noon recess, was soon dashed.

A. F. Hartung, president of the CIO Woodworkers, accused employers of being "greedy and irresponsible," and issued a long statement attacking the employers' position in the dispute over the 12 1/2-cent hourly pay raise sought by the CIO union and the AFL Lumber and Sawmill Workers.

**OLD CONTRACT**  
Employers reiterated that their final offer was to renew the old contract without a pay boost, and indicated the next peace step would come with individual mill owners trying to negotiate with local unions.

They had told the AFL union the same thing in three meetings earlier in the week.

Both unions have said they are willing to negotiate locally, but Hartung expressed some skepticism over what results could be expected from that.

He said the big employer associations would not allow individual member operators to "bargain homesteadly."

The meeting between eight employer groups and the CIO union broke up Wednesday after the sides had exchanged statements in which chairman H. F. Greeley said for the employers, "We are unwilling to meet further until the union committee is ready to join in acceptance" of a contract renewal without pay increase.

**PAY BOOST**  
The employers contend the industry cannot stand a pay boost, and that employees already are among the nation's highest paid industrial workers.

Hartung challenged that and went on to say of employers: "They have taken advantage of the strike to boost lumber prices to outrageous levels. Prices have gone up in some instances enough to pay three or four times what the union is asking. The operators are gouging the public at the expense of the workers..."

Hartung insisted the industry was in excellent condition and could afford to pay the increase.

Meanwhile the West Coast Lumbermen's Assn. reported that for the first six months of the year orders were up by about half of one per cent above the same period last year. Production was down 6.8 per cent, mostly because of the strike that began June 21.

## Baseball Scores

**AMERICAN**  
Detroit 900 000 010-1 6 0  
Boston 201 000 00x-3 19 0

Gromek, Miller 8, Herbert 8 and House; Nixon, Kinder 8 and White.

**YOU CAN ROLL A SILVER DOLLAR** — on a sidewalk in front of the First National Bank. In fact, today, lots of men can roll lots of dollars, since Dugan and Mest, "the world's newest Chevrolet dealers," picked Thursday, July 15, to pay off employes with silver dollars. Guarding the shipment is Sgt. Odell Olson (left) while George Dugan (center) and Bob Mest handle the loot.

## TL To Vote On Sewer Bonds

**TULELAKE** — Voters will go to the polls Tuesday, July 20, to ballot on the proposal to bond the city for \$38,000 for extension of the city's sewer lines to the Second Addition south of the original city limits.

The general obligation bonds, to be retired in 20 years will be paid for by property tax payers in the addition to be served. Estimated cost per lot is from \$275 to \$300 per unit.

A favorable vote will be a vote of confidence in city expansion, according to city fathers.

Some 20 new homes will be served by the extension, which will also be a connecting link for the sewage disposal facilities to be installed this year at the Tulelake-Butte Valley fairgrounds.

The polls will be open from 7 a.m. to 7 p.m., California time at the city hall. All city precincts will be consolidated for the election.

Only one proposition will be on the ballot.

## Basin Police Seek Kidnaper

State police are looking for Lucille Wade following a report this morning from Robert Mathias, Greer Apartments, that she was abducted about 3 a.m. today.

According to Mathias' story to the police, he and the woman were sitting in her car in the alley behind her home, 1221 East Main, when a car drove up behind them, bumped the Wade vehicle hard enough to push it through a fence. The driver jumped out, according to Mathias, jerked the woman from her car at which point she broke loose and ran into her house.

Mathias said he saw the man go through the back door and drag the woman out to his car and drive away with her. The car, said to be a 1954 Plymouth, took off down Martin street.

About 9:45 a.m. today, Mathias told police the woman phoned him from Fort Klamath, stating she was unharmed. Officers checking cars on the highway had not located the woman by noon today.

## St. Helena Needs Customers

**MONTREAL** (AP) — The 3,000 inhabitants of St. Helena, the island famed as Napoleon's death place, are having a tough time economically.

R. A. Thorpe, the island's only industrialist, came here to attend a Chamber of Commerce conference and to seek business for St. Helena's only export, handmade lace.

"The island's population is having a hard time," he said, "there is practically no prospect for the future except the one possibility I came to explore here—and that is a market for the lace our womenfolk make."

Thorpe owns eight flax mills on St. Helena, but six are closed down and the others are threatened due to unprofitable production. St. Helena is a British colony in the South Atlantic about 1,500 miles northwest of Cape Town. Napoleon spent a six-year exile there after his armies were crushed at Waterloo.

## Weather

**FORECAST—Klamath Falls and vicinity:** Fair through Friday. High Friday 88; low Thursday night 50.

Normal for period 12.28

## Senate Passes Airport Bill

**WASHINGTON** (AP) — The Senate Wednesday passed and sent to the House a compromise bill to authorize \$87,369,600 of military construction projects in all parts of the nation and overseas.

Included are two Oregon projects: \$4,133,000 for the Klamath Falls airport, and \$1,723,000 of new authorization for the Portland International airport added to \$500,000 already listed. Both are in the Air Force section of the bill.

The final total was slightly more than the \$87,168,000 originally voted by the Senate but well under the \$97,000,000 approved by the House and the \$86,976,000 requested by the administration.

The House is expected to vote on the bill Thursday.

The total in the compromise version is broken down this way: Army \$36,000,000; Navy \$201,893,000; Air Force \$308,954,000 and Alaska Communications System \$462,000.

The bill would only authorize the spending. It will have to be followed by an appropriations measure actually putting up the money for the various projects.

**WASHINGTON** (AP) — The House by voice vote sent to President Eisenhower Thursday a bill authorizing \$87,369,600 of military construction projects in the United States and overseas.

The bill was a compromise of measures passed previously by the House and the Senate. An actual appropriation to pay for the work is subject to later action by Congress.

## Union Charged With Boycott

**SEATTLE** (AP) — Charges of "secondary boycott" were filed against the International Woodworkers of America by ship operators' representatives Wednesday as the Pacific Northwest lumber industry strike tied up a second ship here.

Attorneys for the Pacific Maritime Assn. filed the charges against the CIO Woodworkers and four locals with the National Labor Relations Board.

The action followed the appearance of pickets at Pier 28 Tuesday where the Kazukawa Maru, a Japanese ship, was loading pulp for Central and South America. Earlier in the day, pickets halted loading of pulp aboard the American freighter Mormacray.

NLRB officials said an immediate investigation of the ship tie-up would be made. A spokesman said that if ship operators' charges are substantiated, the NLRB will seek an injunction against the picketing.

## Gl's Released By Red Czechs

**WALDHAUS, Germany** (AP) — Seven American soldiers, held in Communist Czechoslovakia since American Independence Day, crossed the border to freedom Thursday at 12:08 p.m. (3:08 PST) after 12 days in captivity.

The seven, six enlisted men and a captain, were turned over at this West German-Czech border point where Associated Press correspondents William Oatis was freed more than a year ago.

They were met by a detachment from the U.S. 2nd Armored Cavalry, which is stationed along the East-West frontier.

An Army spokesman said earlier that "after a routine interrogation, a news conference will be held," probably Saturday.

U.S. Army authorities said the men appeared to be in "good condition" and that they reported "the food was good."

The seven were taken while on a holiday inspection of Europe's grim frontier with communism.

They were brought to the border in a dusty Czech bus. As they climbed out, some of them appeared red-eyed and nervous—but in good health.

They were met by a detachment from the U.S. 2nd Armored Cavalry, which is stationed along the East-West frontier.

They were met by a detachment from the U.S. 2nd Armored Cavalry, which is stationed along the East-West frontier.

## New Lava Beds Chief Named

**TULELAKE** — The appointment of Robert R. Budlong, superintendent of Scotts Bluff National Monument, Nebraska, to fill the superintendency of the Lava Beds National Monument was made known today by Ray Knox, acting superintendent since the death of Don Fisher last February.

Budlong is expected the last week in July or the first week in August.

A second appointment, that of a historian for the monument was also announced by Knox.

Thomas Murphy graduate of a Washington college arrived Wednesday as an addition to the staff.

His appointment followed an appropriation authorized last year by Congress for an increase in park personnel to meet public needs.

## Prisoners Of Vietnam Mistreated

**HANOI, Indochina** (AP) — French Legionnaires captured at Dien Bien Phu Thursday told of an exhausting march that lasted 41 days and covered 500 miles.

"Those too sick to continue were left to die," one legionnaire said. "Those behind us are in much worse shape than we."

(The first two paragraphs of this dispatch were heavily censored.)

Legionnaires made up the bulk of 100 prisoners of war released by the Communist-led Vietminh Wednesday in an exchange at Sam Son, on the Indochina coast, 70 miles south of Halphong seaport.

A similar exchange of 100 French and 100 Vietminh held POWs was under way Thursday at Vietri, 40 miles northwest of Hanoi.

The first eight to reach Hanoi by helicopter from Vietri also were captured at Dien Bien Phu May 7 and told similar stories of long forced marches, and starvation diet.

"Sometimes there was only a handful of rice to eat," said one. Most of the Sam Son exchanges, who were brought by French ship to Halphong Thursday morning, are suffering from severe dysentery and intestinal disturbances. Their ribs are ridges under drawn yellowish skin. A French medical officer said several are not expected to live.

One said the daily food allowance for the death march was 400 (14 ounces) grams of rice a day "and nothing else except 10 peanuts every 10th day."

"God, they look awful!" a shocked French army official said. "If these are the best conditioned ones, the others must be in terrible condition."

## Ship Picks Up Raft Sailors

**SAN FRANCISCO** (AP) — Five wet and weary amateur sailors who had hoped to drift to Hawaii were plucked from their foundering, powerless raft 60 miles off central California early Thursday.

The freighter SS Metapan radioed at 4:25 a.m. that all of the men had been rescued despite high seas and strong winds.

Presumably all were in good condition. Details of the rescue were not available.

The Metapan, which located the tiny yellow raft Lehi 62 miles west of Point Sal, said it was heading for San Francisco, about 175 miles away. It was expected to dock at pier 60 between 3 and 4 p.m. PDT Thursday.

The 32-foot six-sided raft was cast adrift by the Metapan, but the Coast Guard said the cutter Alert would find it and destroy it as a menace to navigation.

Search for the fragile raft which put out from San Francisco last Friday ended off Morro Bay 8 hours and 25 minutes after the Coast Guard answered an urgent SOS that the craft was sinking.

The 7,067 ton Metapan, which sailed from Golfito, Costa Rica July 9 with a cargo of bananas, was in the general area when it picked up the SOS. It was bound for San Francisco and Puget Sound.

The United Fruit Co. freighter picked up a radio signal from the Lehi at 12:25 a.m. PDT and took the raft alongside less than three hours later in what the Coast Guard praised as a marvel of seamanship.

WASHINGTON (AP) — Republican leaders refused Thursday to give up their plans to adjourn this election year Congress on July 31, despite Democratic contention that it is an impossibility early goal.

Sen. Lyndon B. Johnson of Texas, the Democratic leader, said Wednesday "we will be lucky if we get out early in August. I suspect it will be nearer Aug. 15."

Contending that the Democrats are only "being realistic," Johnson said their policy committee had appraised the situation at a luncheon meeting. He said the Democrats are willing to cooperate but believe "full and complete debate" must be had on a number of pending controversial measures.

Sen. Knowland of California, the Republican floor leader, told newsmen he believes Johnson "is unduly pessimistic." The date of adjournment hinges largely on Senate progress, since the House is further along with its work.

## Lightning; High Winds Cause Havoc

**By THE ASSOCIATED PRESS**  
Deaths attributable to weather roached at least 111 Thursday in the wake of the season's hottest wave, and a series of violent storms which helped to break up the wave.

Included in the toll were victims of heat prostration, of drownings among the many who sought relief from the high temperatures, and of storms which swept in behind the boiling surge of air as it moved through eastern states.

Cooling air, frequently dropping temperatures into the 50s last night where only the day before they were above 85, blanketed the north central states. This air was falling, the thunderstorm violence into the eastern region.

The heat-relieving storms left a multimillion-dollar trail of wind and lightning damage across New England, eastern New York, New Jersey, Maryland, Pennsylvania, Ohio and southern Michigan.

Winds of near-hurricane strength uprooted trees, peeled off roofs, snapped power and telephone lines and blocked highways.

The mercury hit a sizzling 120 degrees at Fort Scott, Kan., before the cooler air began moving into that state. Temperatures of 100 degrees or higher were common from Kansas, Oklahoma and northern Texas eastward to the Atlantic.

**POULTRY DIES**  
Thousands of baby chicks died from the heat in Arkansas. The Arkansas Poultry Federation said the state's poultry industry may suffer its worst baby-chick shortage in history.

Volunteers responded to an appeal to help save the lives of feeble-minded patients at the state training school in Winfield, Kan. Some Mongolian-type patients are supersensitive to the heat because of deficiency in a gland that acts as a sort of thermostat in the body. They had to be packed in ice or otherwise externally cooled.

Eleven patients have died in Kansas mental institutions this week.

Even tropical plants at the Missouri Botanical Garden in St. Louis withered.

An automatic sprinkler system went into action in a suburban St. Louis car factory when the temperature reached 195 degrees in the firm's attic. Workers were drenched and the office was flooded.

**FATALITIES**  
Missouri had 29 fatalities; Oklahoma, 18; Kansas, 15; Illinois, 8; Kentucky, 5; Colorado, 4; and Iowa, Louisiana, Nebraska, Pennsylvania, Tennessee, Connecticut, Virginia, West Virginia and Maryland, 1 each.

These all-time high temperatures were recorded: St. Louis 112; Springfield, Ill., 114; Columbia, Mo., 115; Springfield, Mo., 113; and Tulsa Okla., 112.

Other high readings included Philadelphia 101; Washington, D.C., 100; Huntington, W.Va., 105; Richmond Va., 103; Baltimore, 101 Newark N.J., 101; Terre Haute Ind., 107; Columbus, Ohio, 104; Arkansas City, Kan., 118; Mexico Mo., 116; and Kansas City 110.

**STORM DAMAGE**  
Update areas of New York suffered severe storm damage. At Pen Yan, in the Finger Lakes region, the mayor declared a state of emergency and estimated damage at two million dollars.

The heat also touched off severe storms in the South and West.

A heavy rainstorm with winds up to 62 miles an hour hit Denver. One of the worst electrical storms in years caused thousands of dollars of damage in Atlanta. Half the city was without power service at one time.

Cool Canadian air spread across most of the Northern Plains and Midwest, ending the heat wave in those sections.

## Bees Escape In Downtown KF

The bees have it... Maybe not the honey, but Fifth Street.

Two sleepy Cottage Grove bee handlers, who failed to hit the road at dawn, are still trying to round up the elusive pollen chasers who didn't over-sleep.

The two men parked a truck and trailer loaded with bees on La-Pointes parking lot in the rear of the Earley Hotel where they registered as over-night guests.

When the handlers failed to arise as early as planned the bees became inquisitive about city life and began swarming around the parking lot, Fifth and Pine Streets, and some even braved the traffic hazards of Main Street.

Unable to corral the elusive stingers the men left one hive at the parking lot and took off with the remainder. However, the lot was closed for the day as the bees left behind continued to enjoy their freedom and would have no part of a hive.

**PRAISE**  
VIENNA, Austria (AP) — Vienna newspapers Thursday praised an Associated Press photo showing Russian and American soldiers fighting shoulder-to-shoulder against the Danube floods. Editorials said this shot of the first real cooperation between the rival troops since 1945 would "go around the world."

**NEW RESIDENTS** in Klamath Falls, the E. J. Dowty family, checked the Herald and News this morning for a home. With Dowty are his daughter, Patsy, aged 7, and his wife. He is a salesman at the Buick garage. Former home was Newport.
