

Crowds Enjoy New KF Pool

Consistent capacity crowds at the Municipal Swimming Pool have included people from nine states, two foreign countries and one U.S. territory.

Arkansas, Florida, New York, Wyoming and Virginia have registered in the "out-of-town" guest book at the pool.

Dr. Karl-Erik Wandell, sent from Sweden by the Royal Board for Vocational Training to study vocational training programs in this country, visited the pool on his brief stop in Klamath Falls.

Oregon Meat Rule Changed

Some Oregon meat dealers will need a different class of license than they now hold as a result of a recent opinion the Attorney General's office has given to the state department of agriculture.

Dealers who have any question as to the type of license their operation requires as a result of this opinion are invited to query the state department of agriculture, division of animal industry, at Salem. Dealers making such inquiry should give complete facts on the type of business conducted.

GI Bill To Be Extended

WASHINGTON (AP)—The House voted unanimously Wednesday to boost compensation payments to war veterans—and some dependents of veterans—who have service-connected disabilities.

The legislation provides for no increase for veterans, or dependents, whose pension payments are not based on service-connected disabilities.
