### U. S. Aid Will Be Left To Reds

WASHINGTON (AP)—Harold E. Stassen says the United States is planning to leave "humanitarian type" equipment behind in the areas of northern Indochina turned over to Communist control in the peace agreement.

Stassen, foreign aid director, told a news conference yesterday that "we will not dismantle or destroy those things which will benefit the people who remain behind."

He said the equipment would include such things as hospitals, health clinics and water pumps. Stassen said he could not estimate their dollar value.

### Storm Damages Sailing Vessel

SEATTLE (AP)—The 43-foot sailing vessel Thunderbird limped towards Coos Bay under the power of a small auxiliary engine early Friday after weathering a storm off the Oregon coast.

The Thunderbird, skippered by Don E. Avery of Seattle and with seven others aboard, called for help Thursday when it ran into strong winds while sailing to San Francisco on the first leg of a voyage to the Hawaiian Islands.

The Coast Guard cutter Bonham reached the vessel Thursday night and reported winds which had reached a peak of 55 miles an hour were abating and the Thunderbird was heading for Coos Bay after repairing its auxiliary engine.

The Thunderbird sailed from Seattle last Friday with Avery, his wife and two daughters, and four University of Washington students.

The Copco story is a story of the West

**Top Hand**

Not so many years ago, rural electrification was a dream. Today it's a dream come true... with 93% of the nation's five million farms wired for greater production.

Since 1920 COPCO has contributed to the tremendous project of bringing electricity to the farms of America. The Company's network of transmission lines and substations now serves the power needs of people in ten counties of Oregon and California.

This region's dairy farms, orchards and livestock ranches are modern power workshops. Electricity — Jack and Master of all trades — milks the cows, pumps the water, controls insects, shears sheep and unloads the feed for cattle.

These are but a few of the ways in which power produced by COPCO serves the farmer, helping him to produce more, have more and live better.

### Contempt Charge Faces Witnesses

WASHINGTON (AP)—The House Un-American Activities Committee Friday called on the House to cite for contempt 17 persons who refused to answer questions or produce documents at its hearings into alleged Communist activities.

The House previously voted in favor of the prosecution of nine persons who had declined to respond to questions after being subpoenaed to appear before the group. The final decision on prosecution lies with the Justice Department. Conviction carries a maximum penalty of a year in prison and a fine of \$1,000.

Chairman Velde (R-Ill.) said the citations were recommended as a result of the witnesses' conduct at hearings held in Detroit, Lansing and Flint, Mich., San Diego, Calif., Seattle, Wash., Portland, Ore., and Washington.

Velde said they included: Carl H. Jackins, Seattle; George Tony Starkovich, Seattle; Thomas G. Moore, Portland, Ore.; John Rogers Mackenzie, Portland; Donald M. Wollam, Portland; and Herbert Simpson, Portland.
