Summer Get-Together

MR. AND MRS. RUPERT (BUD) GATES . . . houseguests with young son, Paul, at the home of Mrs. Gates' (Shirley) parents, Mr. and Mrs. Paul Dalton, on the Merrill Highway, turned hosts last Saturday night to entertain about 40 friends — many of them childhood friends of the hostess. The party was given in honor of Mr. and Mrs. Robert (Bob) Orshood, Bakersfield, now living in Klamath Falls. Pictured above, top left (l to r), Mrs. John O'Neill, Arnold

RITA AND BILL — of Flowers by Bill and Rita — are on what looks like a combined business and pleasure trip. (At least they attended the National Sales and Management meeting in Corvallis. Plans also included a visit with Bill's mother and Rita's parents in Salem — and a drive thru the Redwoods on the coast before returning to KP sometime next week.

EL PASO — Juarez and other points in and adjacent to Texas were included in the Charles A. Howards' vacation itinerary — they were gone a couple of weeks — primarily to meet their future daughter-in-law, Mary Louise Lopez — who will exchange vows with their son Harold Dee Howard, July 21 in El Paso. — The romance began when they met in the "Coke" bar at Biggs Air Force Base where Harold is finishing his fourth year in the USAF — and where Mary Lou is employed by the government — Charles and Eunice Howard made the most of their two weeks with bull fights in Juarez and sightseeing trips to Carlsbad, Petrified Forest, Grand Canyon, Painted Desert etc — before wheeling up to their own door at 116 Grant.

WILFRED HENRY — from Menlo Park (or little K Falls on the Peninsula) was in town until yesterday morning visiting his brother Bob and family — and a flock of old friends — even had sessions with some old (dates not mentioned) KUBIS animals — He had a long bad moment of apprehension — faced with a possible extra day in KP — when he was scheduled to be on duty with his partner in their busy grocery mart in Menlo Park — He was leaving a friend's home in his new utilitymaker and backed out of the alley into the street — and then nothing happened — he couldn't go forward and he couldn't back up. His clutch was out that he — hoping that passing cars would see his lights he called a tow car — and prepared himself to wait for an overhaul job — and mentally phoned what he'd say to dealer Ralph McCulloch

who'd sold him the lemon — The tow car arrived driven by a man with imagination who couldn't reconcile that particular kind of trouble without a collision — so he crawled under with a flashlight for a look-see — and he was right — a small rock had apparently been kicked up when he entered the alley and dropped down blocking the clutch. Simple as that.

APPETITE APPEAL

The appearance of food has much to do with its appetite appeal in hot weather. Crisp salads, cool ice cream desserts, platters of cold cuts and cheese, refreshing milk drinks are all most appetizing in appearance. A hot dish with a cold meal is preferable, and a cup of cream soup made from fresh vegetables is often just right. Or, try creamed new potatoes with a cold meat and cheese platter.
