MAJOR GEORGE MANUSSIERS, Portland Air Defense Filter Center Department Attachment Company, who paid his first visit here since the Ground Observer Corps was organized, was present recently to present merit awards to a number of the members of the GOC for outstanding work. The meeting was held at the Pilot's Club at the municipal airfield.

Scientists Report Success In New Cancer Treatment

SAO PAULO, Brazil (AP)—Two highly encouraging new successes in the treatment of some kinds of human cancer were reported today at the sixth International Cancer Congress.

One is a surgery-plus-X-ray treatment of cancer of the breast, the most common form of the disease among women. The technique is saving about half the patients who get treatment reasonably early, the congress was told.

The second is a new drug giving—at least temporarily—normal life to a number of sufferers from several forms of cancer.

The surgery-plus-X-ray method was described by Dr. Robert Mc-

Whirter, radiologist and surgeon of the Royal Infirmary at Edinburgh, Scotland.

This method, used since 1941, surgically removes only the infected breast but avoids cutting out a part of the chest wall, armpit and neck to remove lymph nodes to which the cancer probably already has spread.

Those affected areas are treated by X-rays daily for three weeks, beginning 10 days after the surgery. This method thus avoids severe mutilation of the body and some complications from surgery or X-rays.

McWhirter said 60 per cent of the women treated by the combined method had survived for at least five years. A five-year survival is usually regarded as evidence of a cancer cure. He said 48 per cent had survived 10 years. All were women whose breast cancers were regarded at the time as suitable for operation.

Even on cases considered unsuitable for help by extensive surgery, McWhirter said 32 per cent were alive five years after the combined treatment and 16 per cent were living normal active lives after 10 years.

Encouraging success through use of the new drug thiotepa was described by Dr. Jeanne Bateman of George Washington University, Washington, D.C.

She said a high percentage of patients with cancers of the ovaries, breasts and the worst form of brain cancer had achieved good results, enabling them to return to months of useful, active life so far. The drug often produces temporary good results in other forms of cancer, she added.

Describing results with the first 4 patients tested, Dr. Bateman said the drug works best, if injected directly into the cancer. The drug even then manages to go to work on cancers in distant parts of the body begun by cells wandering from the original site.

The drug is not a cure, Dr. Bateman cautioned, but it has succeeded in keeping some patients on their feet and useful until nearly the end of their lives.

Reds Stage Anti-Drink Campaign

MOSCOW (AP)—The Soviet press, pushing a campaign against excessive drinking, has come up with the story of a young chap who fell off the wagon because he heard nothing but enticing songs about drinking.

It seems that Vasily Ruchkin liked his vodka. But members of the Komsomol, Young Communist League, talked to him and got a promise of sobriety.

"The Komsomol committee," reports Komsomol Pravda, the youth league's paper, "got Ruchkin to feel ashamed. The committee secretary advised him to go to movies, concerts and the theater as a way of keeping him out of bars."

Ruchkin decided to invite a young girl and they went to the cinema. But there they saw a comedy in which the main character sometimes drank vodka. As if further to test Ruchkin, the movie showed tables filled with drinks.

Ruchkin saw his girl friend home and returned to his lodgings. He switched on the radio. He got a musical program in which they told about eating cutlets and drinking Moscow vodka.

"Ruchkin did not approve this. So he took up a copy of Literary Gazette and read a short play which told about people drinking champagne to celebrate someone's departure. Next day he visited some girl friends in their rooms to play phonograph records only to avoid accepting an invitation to go out with drinking boys. What did the girls do but play records like 'Let's Drink to Baku' and 'Lord Grant us Our Glass Is Never Empty'."

"When he complained, the girls said, 'Why, this is art.' . . . So he went to a theater and in the play they also drank. He walked home and saw an electric advertisement saying 'Drink Wine and Cognac of Armenia.' . . .

"And on his way home Ruchkin wondered why heroes of drunkenness as the singers are not reminded, why everything that is harmful is portrayed so nicely, why the radio without any shame broadcasts songs about drinking, why playwrights make their main characters drinkers and why there are no unibottle songs and no plays about nondrinking people."

Little Hope Seen For State, Bills

WASHINGTON (AP)—Any lingering possibility that Congress would vote at the current session to take Hawaii and Alaska into the Union as states was wiped out late yesterday.

The House Rules Committee, by voice vote, decided against sending separate House and Senate bills to conference to iron out differences.

The House had voted statehood for Hawaii as the Eisenhower administration asked. The Senate voted to give statehood to both Hawaii and Alaska.
