STOCKS WALL STREET NEW YORK (AP) — The stock market was a little higher Thursday in the late afternoon for the third straight session. That compares with 2,740,000 shares traded Wednesday.

Slide Gives Famous Falls 'New Look'

NIAGARA FALLS, N. Y. (AP) — The face of the American Falls, the thundering beauty imprinted on the memories of millions of honeymooners, wore a new look today. The change in the American portion of the great cataract took place yesterday with the collapse into the Niagara River gorge of an estimated 185,000 tons of rock. Carried from the top of the 170-foot chasm was most of the well-known observation area—Prospect Point—and a huge pie-shaped chunk of the American Falls itself. It was the largest break-off at the falls since Jan. 17, 1931, when a huge section of the American Falls tumbled onto the mist-shrouded rocks below. Countless visitors witnessed yesterday's thundering fall, but no one was injured. Engineers for the Niagara Frontier State Parks Commission estimated the size of the rockfall as 400 feet long from the lip of the gorge, 50 feet wide, and 150 feet deep. An estimated 200 feet of the falls crestline crashed to a point 70 feet down the face. Throughout the day park officials had cast uneasy eyes on some widening fissures that snaked back onto Prospect Point from the river's edge about 40 feet above the brink of the falls. The area was fenced off by workmen as engineers mapped plans to find out what was causing the break. The entire drop took nearly 10 minutes. The crevices widened rapidly in the asphalt pavement and the lawn of the observation area. Then the wire and iron fence appeared to settle before breaking up in huge pieces and crashed to the floor of the gorge. The riverbed sections followed. One section of the point which had a mature tree growing on it was left standing, but engineers said it would have to be blasted away if it didn't fall of its own weight. The change resulted in improved appearance of the falls. Visitors now will be able to get a head-on view of the American Falls because of the deep "V" carved in its flank. Prior to yesterday, the only "head-on" view of the American Falls was from the Canadian side, thousands of feet away across the gorge.

Convict Faces Death Deadline

SAN QUENTIN, Calif. (AP) — Convict author Caryl Chessman has only one day left to outsmart the executioner. He has done it before and hopes to do it again. The 32-year-old convicted rapist and kidnaper said he would appeal to the U.S. Supreme Court today. Tomorrow he is scheduled to die in the San Quentin Prison gas chamber at 10 a.m. For six years Chessman's legal maneuvers have saved him from execution. On May 22, 1948 he was convicted in Los Angeles of eight counts of robbery, four of kidnaping, two counts of sex perversion on victims, one count of attempted robbery, one of attempted criminal assault and one of auto theft. Chessman, acting as his own attorney told the jury: "I never molested any woman. Either acquit me of these charges or give me the death sentence." Chessman has made his own funeral arrangements and written his will disposing of estimated \$20,000 proceeds from his book, "Cell 2455, Death Row." He set up trust funds for three children of people who had befriended him, but refused to make their names public. Chessman's attorney Beryn A. Rice said he would ask one of the justices of the U.S. Supreme Court for a stay of execution while a new petition is filed.

Stevens Plans Security Checks

WASHINGTON (AP) — Secretary of the Army Stevens has ordered a "highest priority" top-level check before a person can get an Army commission as an officer or a warrant officer. The order, effective July 1 and made public Wednesday night, is aimed at barring security risks from officer ranks and doing away with such cases as that in which former Maj. Irving Peres was promoted while under investigation. The directive calls for an FBI check and also checks with other government agencies on applicants for commissions. It says: "When information is obtained as a result of the National Security Agency check or from any other source which indicates that appointment may not be clearly within the interests of national security, the applicant will not be appointed without the specific approval of the secretary of the Army."

State Liquor Profits Down

PORTLAND (AP) — Oregonians consumed slightly more liquor, but the state's profit went down slightly in the year ended June 30. The State Liquor Control Commission reported Wednesday sales totaled \$45,074,480 for 852,287 cases of liquor and wine with liquor-by-the-drink dispensers accounting for 20 per cent of that. Net income was \$13,183,717, a drop of \$85,533. This was blamed on a decline in privilege taxes and license fees. Privilege taxes on beer and wine went down 9 per cent to \$1,181,832, and license fees down 2 1/2 per cent to \$614,019.

Copter Riders Cause Crash

TAIPEH, Formosa (AP) — Chances are these two Formosan farmhands will think twice before again attempting to hitch a ride on a helicopter. The Chinese Nationalist Air Force said one of its pilots set his "copter down in a field for emergency repairs. Two farmhands who had been watching ran to the craft and clung to its framework when he departed. As the chopper gained altitude the two became terrified and screamed. The pilot, only then aware he had passengers, began a gentle descent. Panic-stricken, one farmhand let go, dropping a few feet to the ground. This caused the plane to lose balance and it crashed. The pilot suffered injuries to both legs. Neither of the hitch-hikers was injured. Both are being detained.
