

Knowland Urges Action On Foreign Aid From Senate

WASHINGTON (AP) — Majority Leader Knowland (R-Calif) pressed the Senate today to catch up with the adjournment-minded House by passing a new foreign aid authorization of \$3,100,000,000.

The House, which has passed earlier a larger authorization, yesterday whipped through a foreign aid money bill of \$5,208,419,979. The higher total includes both \$2,895,944,000 in new funds and authority to use \$2,312,475,979 in funds which Congress voted in previous years and are not yet formally obligated.

The authorization merely sets a ceiling on the amount of new money which may be appropriated in the current fiscal year. Senate debate on the measure was begun

yesterday, then put aside for action on a housing bill.

Somewhat contrasting views on the foreign aid program were expressed in separate speeches prepared for delivery by Sens. Mansfield (D-Mont) and H. Alexander Smith (R-N.J.), Foreign Relations Committee members.

Mansfield urged an orderly wind-up within a year. Smith said this is not the time to shut off foreign aid.

Mansfield is the author of an amendment, written into the bill by the Senate Foreign Relations Committee, setting next June 30 as the termination date for both economic and military aid programs. He won approval last year of an amendment fixing June 30 of this year as the termination date but allowing an additional 36 months to wind up spending of military aid funds and 24 months for liquidating the economic aid program.

His amendment in the present bill, while extending this termination date for one year, would allow no additional liquidation time beyond that approved last year.

He told the Senate he hoped the executive branch would get the idea from his amendment that "Congress and the American people cannot accept the concept that foreign aid is a permanent part of the foreign or military policy of this nation."

Smith said he recognizes "that there is a general feeling today that this aid program has run long enough—that there is a time to stop giving away the tax dollars of our

"Quigley likes to use it on those drivers who don't dim their lights!"

people," but he added:

"I think we are compelled to recognize that now is not the time to cut it off abruptly, without regard to the consequences."

The New Jersey senator argued

that Russia is engaging in its own aid program and in an effort to show the world, particularly in North Korea, "that their system provides more and is capable of achieving more than our own."

Huge Northwest Wheat Surplus Reported

PORTLAND (AP) — The wheat carryover in the Pacific Northwest is twice as large as in any previous year.

There were 79,316,000 bushels on July 1. That was 51 per cent greater than the previous record of 52,519,000 bushels in 1942, the Federal Crop Reporting Service said Wednesday. It was three times larger than last year.

Washington had 57,350,000 bushels, Oregon 16,070,000, and Northern Idaho 5,896,000.
