US Reserve Planning Said Poor

WASHINGTON (AP) — Secretary of Defense Wilson said Tuesday "would be a scandal and very disturbing to the American people" if the nation had to go to war now.

Wilson said also that the administration has approved "in a broad sense" the principle of a reserve program based on compulsory service.

The secretary made his statements at a Pentagon news conference at which he was asked for comment on published stories about the new military service plan as outlined by outgoing Asst. Defense Secretary John A. Hannah.

Wilson said the plan as outlined by Hannah was prepared at the Defense Department after consultation with the Office of Defense Mobilization and that it had been presented to the National Security Council.

It was at this point that Wilson said "in a broad sense its principles have been approved."

Wilson's remarks were generally in line with word from the White House that the administration still has a universal military manpower plan under study but hasn't reached agreement on all details.

English Give Pole Freedom

LONDON (AP) — Britain's lord chief justice cleared the road to freedom Tuesday for Antoni Klimowicz, the 74-year-old Polish stowaway.

Klimowicz was before the jurist, Lord Goddard, for a two-minute private hearing on a writ of habeas corpus and emerged smiling.

The result was not immediately announced officially but the young Pole's attorney, J. A. Jaxa, told reporters: "Klimowicz is now a free man. He will apply to the home office for a working permit."

The Pole's appearance in court was a formality required to complete the habeas corpus proceeding under which police had pulled him off the freighter Jaroslav Dabrowski late Saturday night after longshoremen found him hiding half-starved in a rat-ridden hold.

On the same ship was American scientist Joseph H. Curt, former Communist on his way with his wife to Red-ruled Czechoslovakia after being denied asylum to Britain as a political refugee from the United States.

Alturas Woman Leaves Baby

ALTURAS (AP) — A newborn baby boy, whimpering in soiled blankets on a dump ground, brought trouble to Mrs. Orla Bell of Alturas Monday, August 2.

She was charged by District Attorney Paul Baker with child abandonment after it was determined that she had given birth to the child a few hours earlier in the day, and admitted having taken it to a spot beneath a tree near the White Pine Lumber Company dump and of having left it there.

Mrs. Bell, who has two other young children, aged five and seven years, told authorities she feared the older children would find out about the baby, delivered alone by the mother, that she placed it in a car and drove to the spot where the child was found a few hours later by Mr. and Mrs. Wayne Jallina. Alturas, while hunting magpies.

Mrs. Bell said she did not hear the baby cry at any time and believed it to be dead.

The car driven by Mrs. Bell was identified by a picket at the struck lumber company.

The baby was made a ward of the juvenile court.

Milk Control Law Ruled On

SALEM (AP) — Sponsors of the initiative measure to repeal the state milk control law must supply more complete information about their campaign expenses before the measure can appear on the November general election ballot.

Atty. Gen. Robert Y. Thornton ruled Tuesday.

Thornton made his ruling for Secretary of State Earl T. Newbery, who had received a complaint from State Sen. Warren McMinnimee of Tillamook that the statement of expenses in getting signatures for the initiative was incomplete.

The initiative was circulated by Elmer Deetz, Canby dairyman. Thornton said that Deetz "complied with the spirit of the law but did not comply with the letter of the statute."

The expense statement failed to comply with the law because it did not contain the names and addresses of every person who received money in the campaign for signatures.

Thornton ruled that the sponsors "may be permitted to file without delay an amended statement in order to supply the necessary itemization and to show the legality of the disbursements set forth in the original statement."

Thornton added that there must be compliance with the law before Newbery prepares the official ballot. The statement shows expenses of \$3,937. It includes a \$2,677 item for meals, hotels and transportation for volunteer circulators, but does not say who got the money.

Educator Denies Red Accusation

NEW YORK (AP) — Dr. Ralph Barton Perry, 78-year-old Harvard University professor emeritus, says he is not and never was a member of the Communist Party as Louis F. Budenz alleged in testimony before the Subversive Activities Control Board in Washington last year.

The Subversive Activities Control Board questioned Dr. Perry, professor emeritus of philosophy, in a hearing Monday to determine whether the National Council of American-Soviet Friendship should be required to register as a Red front.

Budenz had quoted Jack Stachel, a Communist Party leader now in jail, as telling him in 1945 that Dr. Perry was "a loyal adherent of the Communist Party."

Dr. Perry told the board he resigned as vice chairman of that organization in 1943 because he was unable to attend meetings and take part in policy statements. However, he thought his name was continued on the sponsor list after the group was declared subversive by the attorney general.

He said the attorney general's listing of the organization as subversive "made some difference, but was not decisive and was not regarded by me as sufficient grounds for withdrawing my sponsorship."

The Harvard Professor, winner of a Pulitzer prize for his biography of William James, said he did not know the officials of the council were Communists. He said that if he had known the council was dominated by the Communist Party, he would not have associated with it.

Salvage Of US Indo Aid Asked

WASHINGTON (AP) — Sen. Long (D-La.) told the Senate Tuesday that Communists in Indochina may capture more than 400 million dollars worth of new U.S. military equipment now piled on docks there.

Both Long and Sen. Frear (D-R.I.) urged speedy efforts to salvage the equipment.

Long used this to back his pending proposal to slash more than a billion dollars from the \$3,110,000,000 foreign aid bill.

Republican Leader Knowland of California pressed the Senate to complete action on the bill during the only major issue undecided as the Senate went back to work on the bill which had been put aside for the debate over proposals to censure Sen. McCarthy (R-Wis.). Frear asked Long how much U.S. military aid equipment for the Viet Nam government now is in Indochina.

"I am told that as high as 450 million dollars worth is piled on the docks in Hanoi still in the crates," Long replied.

He said another 700 million dollars worth of U.S. military equipment "was in crates in the pipeline headed for Indochina" and the pending bill contains another proposed 300 million dollars.

Long said elimination of just these items would be more than enough to offset his proposed slash.

Husband Asked to Repay Wife's Pay

ST. LOUIS (AP) — Mrs. Florence L. Windlich, in what her lawyer calls a "new approach to the problem of working wives," yesterday filed an amended divorce petition asking her husband to repay the \$14,527 she earned as a secretary during their marriage.

She charged her earnings during the marriage "were appropriated by her husband and were used and controlled by him" although she never agreed to such action in writing.

Milton S. Napier, her attorney, said he is proceeding under the Missouri Married Women's Act, which provides a husband may use his wife's earnings only if she has agreed to it in writing.
