Guatemala Leaders Order Private Army To Disband

GUATEMALA (AP)—Guatemala's ruling military junta ordered President Carlos Castillo Armas' private army to disband and go home today, but the action generated rising public resentment. An American Embassy spokesman said there was a possibility of a popular uprising in the capital. The junta ordered the disbanding of Castillo Armas' armed "liberation army," which sparked the overthrow of Communist-backed President Jacobo Arbenz Guzman after regular army units and military academy cadets had battled the 700 irregulars sporadically for 21 hours yesterday with mortars and tanks. Twelve persons were killed and 42 wounded in the battling around Roosevelt Hospital, where Castillo Armas' men were camped on the outskirts of the capital. The fighting, outgrowth of weeks of tension between the regular troops and the revolutionists, mushroomed from a dawn brawl between cadets and members of the President's force. One report said the trouble started in a house of prostitution. CEASE-FIRE A cease-fire finally took effect at 6:35 p.m. and the 700 liberation army men surrendered their arms to regular army officers. The revolutionists were ordered to return to their homes throughout the country today. The junta ordered a curfew into effect at 9 p.m. and warned that military patrols would take "drastic measures" against any violators. A spokesman for the American Embassy reported there still was very great tension late last night. The President's backers were disgruntled, the spokesman said, because the army had forced him to break up his insurgent army. The American official said Communists apparently played no part in the violence. The Reds tried, however, to organize anti-government demonstrations while the fighting was going on. Troops loyal to the junta smashed all the attempts. SILENCE Castillo, who rushed back to Guatemala from a visit to Chimaltenango, was believed still firmly in power. He maintained a complete silence yesterday. The army announced the cease-fire, which was hurriedly negotiated by Roman Catholic Archbishop Mariano Rosell Arellano with the help of U.S. Ambassador John E. Peurifoy and others. The government agreed to disarm and disband the liberation army and promised that the military cadets would not be punished for their part in the fighting. The regular army in turn guaranteed to place itself under complete government jurisdiction. AGREEMENT The agreement was signed for the government by Maj. Enrique Oliva, a member of the three-man junta; Col. Enrique Close, defense minister; and Col. J. Pail, under-secretary of defense. Four high officers signed for the army. The Foreign Office denied rumors that the uprising had been instigated from the Mexican Embassy. Arbenz and more than 300 of the government's leftist and Communist opponents are crammed into the Mexican compound. Hostility had increased between regular soldiers and Castillo's motley but well-armed band since it moved into the capital last month and set up camp on the outskirts. The junta President apparently had held his force together as a counter against any move against him from factions within the regular army, there also has been considerable grumbling from supporters of Castillo Armas who felt his followers' role in the overthrow of Arbenz had not been recognized sufficiently.

Accused Man Examined By Physicians

CLEVELAND (AP)—Four physicians prepared reports for police today on the physical condition of Dr. Samuel H. Sheppard, Bay Village osteopath accused of clubbing to death his socialite wife Marilyn. Handcuffed and garbed in prison denim, the 30-year-old osteopath was taken last night to City Hospital, where his orthopedic neck brace was removed and the doctors examined him. Police Chief Frank W. Story said there "was nothing seriously wrong" with Sheppard, as determined by the examination. The chief said it did not include psychiatric tests. The prisoner, whose attorney previously had barred a hospital check up, made no protest about the examination, Story said. He added that he had complained of neck pains yesterday morning, and when jail officials asked for an examination, "we arranged to have it done by experts." Called in by police were Dr. Spencer Braden, a Police Department neurosurgery consultant; Dr. Harry Shade, assistant neurosurgeon at City Hospital; Dr. Alvin W. Tramer, acting chief of orthopedic service there; and Dr. George P. Greene, police surgeon. Meantime, strange-looking lights flickered at the sprawling suburban home where Sheppard's 31-year-old pregnant wife was found July 4 in her bed, hacked to death by 25 home-deep blows. Crime experts, using infrared and ultra-violet lights, picked through the lakefront house seeking blood stains and other clues. Sheppard has told police he was injured and knocked out twice in fights with his wife's murderer. Since then he has frequently worn a white leather and metal orthopedic collar. His attorney, William J. Corriegan, has filed notice in Appellate Court that he will appeal Common Pleas Judge Frank J. Merrick's decision denying a writ of habeas corpus.

Reds Protest Korea Action

PANMUNJOM (AP)—South Koreans demonstrated against Czech and Polish truce inspectors again Tuesday and the Communists charged that the outbreaks constitute a violation of the Korean armistice. The expected protest to the demonstrations which began during the weekend was lodged at a meeting of the military armistice commission here. The U. N. told the Reds that "all steps have been taken to protect the neutral nations inspection teams and that they are continuing their function and inspections." North Korean Lt. Gen. Lee Sang Cho angrily told U. N. delegates that the demonstrations were staged by "people under the military command of your side." Earlier Tuesday headquarters of the neutral inspection team at Pusan, scene of a South Korean demonstration Saturday, was shifted from a hilltop to a former race track now used as a living area for U. S. and U. N. officials. About 200 Koreans marched for an hour outside the area, shouting for the withdrawal of "Communist spies from the country."

Blaze Burns Out Hotel Rooms

NEW YORK (AP)—Ten guests of the Park Sheraton Hotel and 13 firemen suffered smoke poisoning early Tuesday and more than 500 persons fled from their rooms when a smoky blaze burned out a ninth-floor room. Two guests were rescued after being trapped in their rooms by smoke. None of the smoke victims was reported in serious condition. Two out-of-town guests were hospitalized. The 31-story hotel, third largest in the city and formerly called the ark Central, had 1,500 guests registered. The blaze, of undetermined origin, was discovered about 4:30 a. m. and was extinguished by firemen within a half hour.

Move Against Reds Planned

WASHINGTON (AP)—The Justice Department has told Congress it has plans to prosecute individual Communists in a move aimed primarily at the party's underground leaders. This was disclosed in testimony made public by the Senate Appropriations Committee Monday night. Department witnesses appeared to ask for more money to carry on a campaign against subversives. The biggest request was for \$350,000 for the new Internal Security Division. An additional \$468,500 is being transferred from the Criminal Division, where internal security matters were formerly handled. W. E. Foley, who headed the Internal Security Section within the Criminal Division, said plans call for prosecution of individual Communists under a clause of the Smith Act which makes it a crime to advocate forcible overthrow of the government. Foley said details of this program must remain secret "or its success will be seriously jeopardized."

Bobo Confers On Divorce

RENO, Nev. (AP)—Blonde Bobo Rockefeller and her expensive array of legal talent prepared today to close out the romantic saga of the coal miner's daughter and the multimillionaire oil heir. The 37-year-old Bobo may file for divorce at any time from 42-year-old Winthrop Rockefeller. It may come later today, judging only by the apparent last-minute preparations going on at Bobo's divorce headquarters, a suburban Reno home she rented a few weeks ago. Reporters who phoned the residence have been cut short with: "Sorry, we're busy. Call back later." The voices usually identify themselves as Bobo's attorneys. She has six lawyers—five from New York and one from Nevada. The attorneys have pulled a curtain of secrecy over preparations for her divorce from Rockefeller, who is the father of her 5½ year old son Winthrop Paul. A property settlement was worked out the day Bobo arrived in Reno to establish residence. That was six weeks and four days ago. Six weeks residence is required to get a divorce. Bobo—in exchange for a signed and delivered divorce—will get two million in cash, 2½ million in trust funds for herself and Winthrop Paul and another million in personal property. She'll also have custody of the youngster—with whom Rockefeller has been getting acquainted the past few days. He has taken the boy swimming a few times in what Bobo called a "period of introduction." Rockefeller will have the right to see the boy a few times a year. Bobo and the Standard Oil heir married on Valentine's Day 1948, two years after she shed Boston socialite Richard Sears Jr. with a Nevada divorce.
