BY RAIL AND BICYCLE these members of the Students International Travel Association are seeing the west. The party stopped overnight in Klamath Falls enroute from Vancouver, B. C. to San Francisco. The sightseers rode bicycles from Chiloquin to Klamath Falls. Mother Shot By Friend

MENLO PARK, Calif. (AP)—A pretty Menlo Park society matron was shot and killed in the driveway of her fashionable home yesterday by a woman who sobbed hysterically "she was my best friend."

Shot down before the eyes of two sons whom she was preparing to take for a swim was Mrs. Patricia Oberhaus, 36.

Held on a murder charge after fleeing the scene in her new Cadillac was Mrs. Doris Gloss, 40. She could give no reason for the shooting, but police said her commitment to a mental hospital had been recently recommended by doctors.

Mrs. Oberhaus was in the driveway of her home in this fashionable San Francisco suburb when Mrs. Gloss drove up. They chatted a few moments, then Mrs. Gloss whipped a revolver from her purse and fired three shots, police said.

As the dazed boys Tom, 10, and Michael, 8, watched their mother slumped to the pavement, Mrs. Gloss hurriedly backed her car out of the driveway. She hit a tree and narrowly missed a steamroller.

A few minutes later, Mrs. Gloss drove up to her own home and got out of the car brandishing the revolver.

Two neighbor women, seeing the gun, ran to investigate. When Mrs. Gloss fired a shot into the air, one seized the gun from the hysterical woman. She was subdued by other neighbors and police who had just arrived.

Police Inspector William Kieler said Mrs. Gloss moaned repeatedly: "I just shot my best friend. I don't know why."

Vernon Vale, assistant district attorney, said he learned Mrs. Gloss suffered a nervous breakdown recently and that Mrs. Oberhaus had been instrumental in helping her during the period. Doctors who examined her had recommended that she be committed to a mental hospital.

PAUL T. SCHABACKER, son of the Rev. and Mrs. M. Schabacker of Dunsmuir, was recently promoted to the rank of first lieutenant while serving at the Walter Reed Army Medical Center in Washington, D. C. He is a medical social worker in the social service and has been at the hospital since March, 1953. He holds a B. A. degree from Concordia College and his master of social work degree from Washington University, both in St. Louis.

Democratic Leaders Meet With HST To Plan Campaign

KANSAS CITY (AP)—Democratic party leaders turned for advice today to their star give-em-hell campaigner — former President Harry S. Truman — on the eve of a big money drive aimed at capturing control of Congress in the November elections.

Adlai Stevenson, titular head of the party, and Democratic National Chairman Stephen Mitchell arranged to see Truman at his home in nearby Independence, Mo., in a meeting that could very well influence the course of the party's campaign.

Stevenson arrived here last night from Canada, a bit shaken from the experience of having his plane struck by lightning while flying at 14,000 feet over Lewiston, Mont. Neither he nor any of the other 15 persons aboard was injured.

Stevenson, the 1952 Democratic presidential nominee, admitted: "I was scared for the first time in more than 30 years of flying."

Tonight Truman will make a brief pep talk to about 70 party bigwigs who came here to plan ways and means of building up quickly a not-so-happy war chest. The former President is still weak from a recent gall bladder and appendix operation, and his old friends have been asked not to tire him out by shaking hands.

With the money talk, there was speculation over Mitchell's successor as national chairman. He has said he will step down after the November elections and return to his law practice in Chicago.

The name most prominently mentioned was that of James E. Finnegan, president of the Philadelphia City Council who has captained several successful campaigns in the Quaker City. Finnegan was an early pro-Stevenson man in the 1952 campaign.

Other names were Mike di Salle, former mayor of Toledo and head of the Office of Price Stabilization in the Truman administration;

Canada To Form New Sub Patrol

OTTAWA (AP)—Canada's Navy plans to form an anti-submarine helicopter squadron, using "dunking sonar" to track the undersea craft.

Informants said the helicopters will hover close to the ocean surface and lower the sonar listening gear beneath the waves. If they hear no subs, the sonar is wound up and the aircraft moves to another spot.

So far the navy hasn't been able to find the helicopter for the job. It needs one that can carry more equipment—depth charges as well as the sonar—and with greater endurance than present models.

The Canadians expect U.S. manufacturers to come up with the answer.

Kentucky To Hold Primary

FRANKFORT, Ky. (AP)—Voters of this border state tomorrow will nominate 10 congressional candidates in a quiet prelude to a keen U.S. senatorial race expected to match names—Cooper and Barkley—regarded by some Kentuckians as having political magic.

Sen. John Sherman Cooper, Somerset Republican seeking reelection and former Vice President Alben W. Barkley, Paducah Democrat running to regain the senatorial post he had before being elected "Veep" in 1948, are without strong opposition in their primaries. Each is backed by his state party organization.

The 76-year-old Barkley and 52-year-old Cooper have been speaking for some time—although doing up little formal campaigning—and leaders of both parties anticipate one of the most heated races in Kentucky history between the pair before the Nov. 2 general election.

In District primaries tomorrow, eight nominees for the U.S. House of Representatives will also be picked.

Fish Commission Employees Hurt

HOOD RIVER (AP)—Two men were injured when a State Fish Commission truck, loaded with live fish, was forced off the Cascade River Highway a few miles east of Cascade Locks Thursday.

The driver, John Hutchinson, was thrown from the truck and suffered a possible skull fracture. Joe Cicchir remained in the truck which plunged down a bluff. He suffered broken ribs and a possible broken leg. Both men are from Portland.

A lumber truck passing another car forced Hutchinson's vehicle off the road, police said.

Cary Grant Prefers Travel On Freighters To Liners

By BOB THOMAS

HOLLYWOOD (AP)—"I love my fans," gushes many a movie star. Not so Cary Grant.

He says bluntly what most stars probably feel: Fans can be a nuisance.

There's a certain irony about actors. When they are young, they work like the dickens to be recognized. Then, when they reach stardom, they try to conceal themselves. After talking to Grant, I can understand why.

It all began quietly enough when I visited the set of "Catch A Thief." The elegant Grant, who has more style than any male star you can mention, was lounging in his dressing room. So I asked him about the freighter trips he and his wife take. She's Betsy Drake, the actress.

The Grants have traveled to all parts of the world on freighters, and I wondered why he favored them. He became eloquent as he described the voyage of a movie star on one of the luxury liners.

"To begin with," he began with, "there are 2,500 crew members on one of those ships. Each one of them has an autograph book of his own, or else he is carrying one for his daughter or son. You have to sign each one of them.

"Then there's the ship's photographer. He sees to it that you pose for pictures with every other passenger obtainable. Then he sells them to the passengers for five bob or fifty cents or whatever. He makes his living that way.

"And of course every passenger has two cameras criss-crossed on their chests and they want a picture with you. If you're in the shade, they want you out in the sun; if you're in the sun, they want you in the shade.

"You try to get sleep, but the drunks are beating on your stateroom all night, wanting to buy a drink for you. Then at seven in the morning, the small fry are up and pounding the door for autographs.

"The result is that you either have a miserable time or you're rude. I'm rude. I tell them I never sign anything."

"Why should you be concerned about them? They never worry about me. They don't say, 'let's go to this movie so good old Cary Grant can buy a meal.' One bad picture and they'll drop you like a hot potato."

Contrasting the hectic life for a celebrity on a big liner is the pleasure aboard a freighter.

"There are generally 12 people aboard, and they're fascinating persons," he observed. "Real people—doctors, biology professors, a couple of Japanese girls. People I can learn something from.

Grant said the food is generally excellent aboard the freighters, the pace slow and the conversation congenial.
