Herald and News

KEEP your "best face" forward when off on your long-awaited vacation. It's so simple to do with the wonderful new Beauty Pads. You can treat your skin to a quick cleansing and freshening this easy effective way. Beauty Cleanser Pads, from Tussy Cosmetics, are impregnated with a lanolated cleansing cream for greater comfort to delicate skin and offer a new way to cream and clean the face. So easy to apply, whether at your seat in the plane or in your car before stopping for a visit or a meal. One throw-away pad should be used for the primary cleansing. After the blotting with a tissue, "cream wash" with a new pad to thoroughly remove make-up and travel stains. The companion piece, Beauty Freshener Pads, is saturated with a skin freshener lotion that is non-drying.

Tip for new cooks: when a recipe directs you to simmer (not boil) a ham or a smoked tongue remember to keep the heat adjusted so that bubbles form slowly and collapse below the surface of the cooking liquid.

BARBECUE

Here is an A-B-C formula for basic barbecue sauce so simple it can be memorized for future use. It comes from the test kitchen of The Best Foods, Inc.

Starting with this sure-fire recipe, the young cook can then be as individual as she likes by way of further embellishments, depending entirely on how long the crowd can wait for results and the extent of his imagination.

Success is assured if nothing else is added.

Just mix together 2-3 cup tomato catsup, 1/2 cup real mayonnaise and 1 tablespoon mustard-with-horseradish.

Spread the meat or chicken on the grill over the coals, or spike it firmly to turn on the rotary contraption. Or, on a rainy or cool day, turn to the good old oven broiler and baste with a long-handled spoon.

If the urge to "clean out the ice box" overwhelms, bits of chopped onion, green pepper or what-have-you will do no harm. The best part, however, is that there's no top-of-the-precooking needed with this sauce.

PAINT FAVORITE PICTURES USING GLASS "CANVAS"

Even if you can't draw a straight line, you can produce some striking pictures and designs by using window glass as your "canvas," according to June Cabot, interior design consultant. Simply place the picture or design on a flat surface and cover it with a sheet of window glass. Spray the painting with artist's plastic to keep it from rubbing off and back the glass with a strip of cloth or paper of complementary tone. For instance, if you paint a Chinese red bird, you may wish to back it with black cloth or paper.

"UMMM, GOOD!" says baby as he chews the new plastic "Perma-Nurser," soft, flexible, featherlight, tasteless and odorless bottle that is so easy for his chubby little fingers to hold. "Perma-Nurser" keeps the formula warm five times longer than glass. It can be refrigerated, of course, and it can be sterilized and warmed just like a glass bottle provided water is always used. Bottle-washing time is made easy with the new no-sharp-angle feature which is a discouragement to germs as well. Made of polyethylene, that miracle plastic, it is unbreakable — and there is no big scary noise even if it should slip out of his hands and no spilled formula to clean up or replenish. "Perma-Nurser" is a Vantine, Inc., product.

LEFT OVER CAKE Do you frequently have left over dry cake at your house? Then prepare a Fruit Crumb Whip. All you do is combine cut cubes of cake (frosting and all) with drained chopped fruit (or fruit cocktail), chopped nuts and whipped cream. Chill and serve.

**THE BEST MILK IS A BLEND
BECAUSE IT'S RICHER, CREAMIER
AND EASIER TO DIGEST...
AND MEDO-LAND
BLENDS THE BEST!**

"I'm a Jersey... and proud of it because my milk tops them all in rich, health-giving butterfat. Naturally, Medo-Land uses my milk for this extra richness."

JERSEYS are named for an island in the English channel where breed started. Known worldwide for high production of butterfat.

"We Guernseys built our reputation as producers of creamy, golden milk that is high in minerals, vitamins and butterfat. Our milk adds flavor to Medo-Land Grade 'A' Milk."

GUERNEYS, first raised on the Isle of Guernsey in the English channel, have been brought to a high state of production and health in the United States for the past one hundred years. Noted for rich, yellow milk and cream.

"We're no newcomers... why Caesar's Legions drank our milk in Holland nearly 2,000 years ago. Dieticians know that our milk has the softest curd of all, which means it is the easiest to digest... and you get this digestibility in Medo-Land 'blended' milk."

HOLSTEINS are volume milk producers originally bred in Holland but named for the German province of Holstein. Black and white in color.

We say Medo-Land Milk has a "fresh difference you can taste" and that difference comes not only because of the wonderful "blending" of the best but also because Medo-Land Milk reaches you "farm-fresh." Strictly Grade "A" Milk that is rushed from Grade "A" producers, processed and delivered FRESH!
