

SWEPT OUT of office as mayor of the 800 block by 100 per cent vote (excepting his own, of course), Sam Neslin, left, gracefully retires with the helping hands (and gifts) of every businessman in the block he has ruled for 10 years. It was the consensus that his coming move to Spokane is the first step to Siberia or worse. Thursday night he turned over the broom to Noel Flynn, Payless manager, his appointment to fill the unexpired term of mayor.

New Type Cargo Plane Tested

BURBANK, Calif. (AP)—The Lockheed YC130, first turboprop power cargo plane built for the Air Force, is at Edwards Air Force Base for extensive flight tests.

The four-engine ship was test flown there yesterday, a distance of 60 air miles.

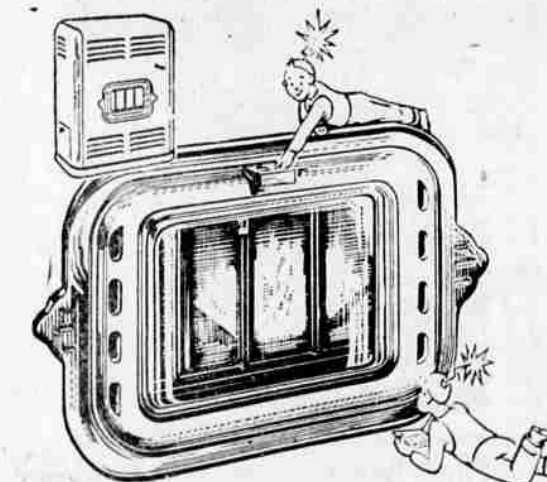

The craft has a wingspread of 132 feet, double wheels on the nose gear and double landing gear wheels in tandem which retract into the fuselage. It can be loaded from the rear of the fuselage.

Designed for logistics support, assault missions and air evacuation duties, it has T56 Allison engines capable of lifting it quickly. The plane was airborne yesterday after traveling one-third of the runway, engineers said.
