 with Agnes Moorehead
 Joel McCrea - Mari Blanchard

MRS. HOWARD HROMADA surveys a "runt" tomato plant left in the hot frame when other plants were set out this spring. Protected from the cold the plant developed into a giant. It is an Early Wonder variety and already has produced ripe tomatoes. The plant was raised at the family home at 4626 Shasta Way.

Riots Follow Vargas Death

RIO DE ANEIRO, Brazil (AP) - Anti-American demonstrations and other riots in the wake of President Getulio Vargas's suicide left three dead and 30 injured in Brazil today.

U.S. diplomatic buildings and firms, as well as newspapers which opposed Vargas, were major targets.

Rioters burned the office of the Diarios Associados publishing and radio chain in Porto Alegre, on the Atlantic Coast, heavily damaged the U.S. consulates in Belo Horizonte and Porto Alegre, and hurled rocks through the windows of the heavily guarded U.S. Embassy in Rio.

Many rioters, apparently sparked by the Communists as well as traditional anti-U.S. feelings, blamed the United States for fomenting the crisis which brought Vargas' downfall.

Obviously, too, the rioters were incited by the 600-word suicide letter Vargas wrote just before his death yesterday, in which he spoke of "a subterranean campaign of international groups joined with national groups revolting against the regime of workers' guarantees."

After writing the letter, the 71-year-old strong man put a bullet through his heart. Only a short time before, a group of 58 air force and army generals had forced him to quit his post.

Since the beginning of World War II, Vargas had been a staunch ally of the United States, first against Germany and later against communism.

STOP! BEFORE YOU PAINT YOUR HOUSE

READ THIS
Imperial
HOUSE PAINT
BLISTER-PROOF
GUARANTEE

IT'S PRINTED ON EVERY CAN OF THIS REVOLUTIONARY PAINT

Through the blending of new and improved oils and pigments Marshall-Wells' chemists have achieved completeness of paint protection never before known! Five years of rigid home testing combined with speeded-up weathering tests in the laboratory proved Imperial's 5 big advantages.

The most severe test for any paint is on new wood. Here Imperial seals wood pores to provide its own best undercoat; and offers 100% blister-proof protection, bonding so tight that no moisture can make it blister. The same revolutionary qualities that make Imperial blister-proof on new, unpainted wood also make it the most blister-resistant paint you can apply to previously painted wood. Furthermore, Imperial will not stain from nails or other metal rust and will not discolor from sulfurous fumes even in smog-filled air.

On your new home or repaint job use new Marshall-Wells Imperial. Once you see its sharper, cleaner white tones and rich colors—you'll never again use a conventional paint.

DOUBLE YOUR MONEY BACK GUARANTEE
 "You are guaranteed that... Marshall-Wells' IMPERIAL House Paint will not be stained by rusting or corroding metals, that it will not be discolored by sulfur-bearing fumes and further, that it will not form blisters due to moisture, when applied to previously unpainted wood..."
