STOCKS

WALL STREET
NEW YORK (U-P) — In one of the quietest trading days of the year, the stock market advanced moderately Thursday.

Some especially strong shares registered gains of 1 to 4 points, but as a general rule the gains were limited. Losses were negligible.

Trading dwindled down to an estimated 1,550,000 shares. That compares with 1,790,000 shares traded in Wednesday's rising market and 2,640,000 shares on Tuesday when prices broke sharply.

GOP Warned Of Coming Vote Fight

CINCINNATI (U-P) — Vice President Nixon, beaming confidence in public, has warned the Republican national committee in private that the party must come out on top in the 1954 congressional contests or face political extinction.

If the Republicans fail, "the swing is going to be completely to the left and the Republicans will be as dead as the dodo bird," Nixon said yesterday.

His pep talk to the national committee, holding a workshop conference in Cincinnati, was behind closed doors. But his remarks were overheard by reporters.

In public he forecast a record-smashing vote would give Republicans better control of both houses, where they now hold narrow margins. But in private he said:

"I think this election is a horse race. I think it is extremely close in the House, extremely close in the Senate."

"You could make a pretty good case for a statement that the Republicans are slightly behind in the House, slightly ahead in the Senate. Analyzing it in another way, it can be argued that they are slightly ahead in the House as well as the Senate. It could go either way."

Republicans won in 1952 because Eisenhower symbolized a demand for a change, Nixon said. The issues then were K. O. R. a. communism, controls and corruption, he said.

He said he thought the party had given the voters "the change they wanted," adding:

"We have brought dignity and respect to the highest office in this land."

Nixon told the party leaders he held neither a "wildly optimistic outlook" nor a pessimistic one.

"The Democrats have no great and compelling issue," the vice president said in a press conference. "The one big issue on which they relied has been pulled out from under them—and that was an economic depression or recession."

In private he warned that power-hungry big city and left-wing Democrats would cause the government if the Republicans failed to conduct a winning drive.

Last McCarthy Charge Studied

WASHINGTON (U-P) — Senators weighing proposed censure of Sen. McCarthy swung Thursday to the last of their five categories of charges — the allegation of "possible violation of the espionage act" by the Wisconsin senator.

The swift-paced hearing had moved quickly over the question of whether McCarthy had encouraged government employees to slip him official secrets.

On both these points, the hearing borrowed heavily from testimony before the recent McCarthy-Army hearings.

And on both counts, McCarthy's lawyer, Edward Bennett Williams, protested that some of the material going into the new hearing record was being taken out of context.

Chairman Watkins (R-Utah) told Williams that in presenting his own case he would have opportunity to "read (into evidence) anything that is not clearly off the subject."

Guy G. de Furia, assistant counsel of the committee, was reading from the McCarthy-Army hearings on the espionage act charge when a recess was taken for lunch.

We have learned many things that will be of use to us when we return to our work in Turkey. Perhaps the most important thing we have observed, however, is the mutual respect and admiration that the people of our two nations have for each other."
