Attlee Urges Red Chinese Leader To Pressure Russia

By FRED HAMPSON

HONG KONG (AP)—Former Prime Minister Clement Attlee disclosed today he countered appeals by Red Chinese boss Mao Tse-tung that he try to engineer a shift in U.S. foreign policy by suggesting Mao urge Russia to mend her ways.

Attlee — just back with seven other touring British laborites from an 18-day visit behind the Bamboo Curtain and three days in Moscow — revealed for the first time, details of his talk with Mao.

He said when Mao urged that British laborites try to influence the United States to pull out of the Formosa Straits and cease rearming Japan and West Germany, he suggested in turn that the Communist boss use his influence with the Kremlin to try to make Russia:

1. Give her people more freedom.
2. Ease restrictions on her satellite states.
3. Stop trying to undermine other governments.
4. Reduce Soviet armaments.

Attlee said neither he nor Mao made any promises regarding the other's proposals.

Commenting on his tour, Attlee said he had found Chinese communism more tolerant than the Soviet variety. He said the Chinese Reds are slower and more careful in absorbing businesses, industry and farms.

"There is less rigidity in China than in Russia," he declared. Aneurin Bevan and six other members of the party left by plane to visit Tokyo today. Attlee will remain here until Saturday, then fly to Singapore and Australia.

Attlee said he had found Red China about what he expected and that the "eyewash" was not excessive.

This was an apparent reference to his statement in London before making the trip that he was an expert on eyewash and would not be fooled by conducted tours, false

statistics and unsubstantiated claims.

He said the touring laborites were permitted to go where they wanted in China, although they had Communist companions with them constantly.

PRINCIPLES

"We found China run by the Communist party on principles on which we do not agree," he said. "We tried to understand their point of view and we drew certain conclusions. One was that the Communists are making great reforms in China and this is a new departure in a government in that nation."

"We found the government incorruptible," he added. "We were impressed with the remarkable work in public health and especially with their anti-fly campaign."

He said China was the one Asian country where he saw no flies in the market place.

He said China's Red leaders face an immense task and, in contrast to the Russians, they make no pretense about it.

"They admit they have a great deal to do yet and that there are many shortcomings," he said. "In Russia they tell you the whole world is inferior to Russia and things Russian are the best. I heard no such boasting in China."

Work in public housing and education impressed Attlee, especially efforts made to educate the peasants. But he said he was disturbed by the enormous pressure of Red China's vast population on her limited land and resources.

Ike To Make Flying Tour Over Reclamation Projects

DENVER (AP)—A vast land where men fought to the death for water and one where surging floods have torn apart the works of man will unfold before President Eisenhower when he makes a four-state flight Saturday.

Millions of dollars including federal funds — have been spent to channel churning streams of the region into giant irrigation and power projects or to confine floodwaters behind dams to save farms and towns.

Billions of dollars will be needed to carry out other projects under discussion, some of which are

arousing bitter controversy. The President's flight, designed to give him a glimpse of reclamation and flood control developments, will take him across Colorado, Wyoming, Nebraska and Kansas. Twice he will pass over the Continental Divide with peaks towering up to 14,000 feet, then he will fly over deserts, grazing lands and high plains which usually grow much of the nation's wheat. This year some of the plains country is in the drought disaster area.

Reclamation officials and Secretary of Agriculture Benson will be along to give Eisenhower briefings

during the trip, which will cover nearly 2,000 miles.

The President has scheduled 30-minute stops at Grand Junction, Colo.; Casper, Wyo.; and McCook, Neb., during which he will shake hands with Republican political candidates and make informal airport talks.

For 10 minutes the President's plane is due to circle above isolated Dinosaur National Monument, along the Colorado-Utah border, where a proposed dam at Echo Park on the Green River has stirred nationwide debate. The dam would be a key unit of the

proposed billion-dollar upper Colorado River storage program but would inundate a wilderness which many conservationists insist should be preserved for future generations.

In central and eastern Wyoming Eisenhower will see units of the

Kendrick project, where demands for release of water to save parched crops downstream have stirred a two-state court fight.
