

OVEN CREAMED POTATOES for an oven dinner are easy to prepare and elegant to eat. Creamed potatoes are one of the all-time favorites with most families and it is a fine combination because of the high mineral and vitamin content of the milk used. Milk used in cooking is an added dividend; it supplies milk nutrients in addition to those in milk consumed as a beverage — and adds a wonderfully good taste. Picture and recipe is through the courtesy of National Dairy Council and sent us through the Oregon Dairy Council, Portland.

Baked Creamed Potatoes

Many kinds of vegetables are enhanced by one or more of the fine dairy foods. Butter, cheese and sour cream as well as milk have much to offer in both flavor and nutrient value.

Creamed potatoes are one of the all-time favorites with most persons and it is a combination that adds necessary nutrients to the menu.

An oven meal consisting of Baked Beef Loaf or Beef Birds, Baked Creamed Potatoes, Escaloped Fresh Tomatoes, tossed salad and baked apples with cream would be a winner.

BAKED CREAMED POTATOES

2 pounds small potatoes
2 1/2 cups milk
1/2 cup melted butter
1/2 teaspoon salt
1/4 cup sliced onion
Dash of pepper.

Wash and peel potatoes. Place in a 2-quart baking dish. Combine milk, butter, salt and onion. Pour over potatoes. Cover baking dish; bake in moderate oven (350° degrees), 1 1/2 hours, or until potatoes are tender. Remove any film that forms during baking. Remove potatoes. Add flour mixed to a smooth paste in cold water; cook until thickened. Season with pepper. Add potatoes, heat and serve. Serves four to six.

Store Luggage Properly

If you neglect your vacation luggage until next time you're ready to travel, chances are that you will find your suitcases in need of a major overhaul because they look shabby. So try a few suggestions and avoid trouble later.

Don't "nest" one suitcase inside another unless you wrap the inner one in heavy paper or use regular luggage covers; linings can be ruined by snags, rust and stains. Prolonged pressure on hinges, lids and locks can cause permanent damage and the bag will lose its shape.

Find a spot for storage where temperatures are fairly constant and humidity not too high or low.

If possible, stack suitcases standing upright with a little space between each one.

Clean each suitcase thoroughly before storage and have needed repairs done right then.

PAINTED FURNITURE

Color is news in furniture. Tables with surfaces striped in several tones or brightened with a single hue appear in thermostat plastic as this material answers the demand for color which is not only chip proof but heat and stain resistant. Painted finishes have returned with vigor. Sometimes it's a lacquered finish which is merely tinted to provide the additional interest of wood grain.

A new luxury has been added to sleeping. Nylon sheets have reached the market which can be stripped from the bed, washed, dried and put back on in the space of one hour. Now you can get the fitted,
