

THE NEW LOOK has been given to Metler Brothers Mill, South Sixth Street and Altamont Drive in a recent remodeling. The company manufactures door frames, window sash and windows.

Metler Mill Work Done

Pine timber bought locally and manufactured in Klamath Falls, into door frames, windows and window sashes is being widely distributed over the United States. Carload shipments of the finished products are going to Michigan, Maine, New York State, Virginia, North and South Carolina, Georgia, Tennessee, Missouri, Nebraska, Minnesota, Pennsylvania and other points, from the Metler Brothers Mill on South Sixth Street.

The mill, built in 1926 or 1927 has recently had an exterior covering of asbestos siding put on that is both fireproof and weather resistant. New signs have also been painted. The building was put up by the Klamath Moulding Company which occupied the quarters until 1937.

The business which employs 46 men in addition to the five owners, four brothers, W. B. Metler, Everett Metler, Jack Metler, George Metler and an associate, Dale Beber, operates on a year-around schedule.

Conventioner Gets All He Can Stand

HUTCHINSON, Kan. (AP)—Nels Greenlund figures it's nice having everything in one place. Greenlund, manager of an Atchison investment firm, arrived Sunday to attend a convention of the Kansas Title Assn. Other delegates left when the meeting ended, but Greenlund stayed on.

Tuesday he attended a meeting of the Kansas society for Exceptional Children, which followed the title association session. That ended Tuesday evening, but Greenlund still didn't leave.

He's attending a session of the Kansas Assn. of Real Estate Boards, which convened yesterday and will run through Friday.

Here's why **GALLO** TASTES SO MUCH BETTER than other wines
