

Reds Win Support On New Meet

BONN, Germany (AP)—Soviet Foreign Minister V. M. Molotov's bid for new four-power talks on German reunification gained quick support today in the West German Parliament.

The powerful Socialist party—Chancellor Konrad Adenauer's chief opposition—demanded some new active step by the West to meet with the Russians on the question of German unity. It also urged the formation of a European security pact within the framework of the United Nations.

Western observers viewed Molotov's proposal as the opening blast in the Kremlin drive to torpedo West German ratification of the recent London rearmament agreement. The first West German reaction indicated the Soviet move

may give the Chancellor trouble in his campaign to win approval at home for the London defense alliance with the West.

The Socialist position was outlined to Parliament by Party Chairman Erich Ollenhauer. He told the West German lawmakers that without a new effort to reach agreement with the Soviets on German unity, the London Agreement is a "useless" approach to a solution of Europe's problems.

Ollenhauer assailed Adenauer's policy of strong ties with the West. He declared the rearmament of West Germany would be expensive,

"dangerous" and, in the long run, no contribution to the world's security.

Ollenhauer's demands differed

Tension In Hanoi Grows; Change Near

By FORREST EDWARDS

HANOI, Indochina (AP)—(Delayed)—Tension mounted Tuesday night in Hanoi and violent incidents increased as French troops prepared to turn over the North Indochina capital Sunday to the Communist-led Vietnamese.

The city's native quarter was aroused by a report that a French soldier has shot and killed a Vietnamese who protested when the soldier took a fountain pen away from him. An Indian witness said the victim was a Chinese "madman" who ran amok with a knife and was killed by French military police when he charged them.

In another incident Tuesday, witnessed by an Indian army officer attached to the International Armistice Commission, a group of raggedly dressed Vietnamese youths pulled two Vietnamese city government clerks off their bicycles and beat them, only a block from Hanoi's French business section.

Until those happenings, the city had exhibited a lethargic calm toward the impending French departure. An advance party of 250 Vietnamese administrative and technical personnel arrived Monday in preparation for taking over public utilities and a detachment of 180 civil security police moved into the city Tuesday.

Some 250 Vietnamese military police are scheduled to arrive Saturday.

Present plans for the changeover call for the main force of Vietnamese troops to enter one end of Hanoi as the last French security forces march out next Sunday across the bridge, nearly a mile long, spanning the marshes and channels of the Red River.

All French army vehicles are to cross the bridge before dawn and rendezvous beyond the river along the highway leading to the port of Haiphong, the last French stand in North Viet Nam.

Between 10,000 and 15,000 French troops were reported still in the Hanoi area Monday.

If Hunting Is Your Weakness

... Make Forest Fire Prevention Always Your Strongest Point

"Careless Deer Hunters Blamed For Fires In Klamath and Lake County." That was the front page banner headline on last Monday's paper. The sub-head went on to point out that crews were battling the blazes.

It's a funny thing, but when it was 90 degrees in the shade last summer, practically everyone was careful with fire. But now a lot of guys get the so-called "buck fever" and don't seem to realize just what a forest fire means.

Anyway, everyone in all areas is warned to exert the utmost caution in handling their fires and smokes. Thus far, and the hunting season has just started, there have been literally dozens of fires left smoldering or actively burning. Let's all be careful . . . let's be sure our fires are dead out . . . let's keep Oregon Green!

PREVENT FOREST FIRES

... Keep Oregon Green

NOW, FOLKS, LET'S GET DOWN TO THE TRUE FACTS ON THIS MILK BUSINESS

"I WANT TO PRODUCE CLEAN MILK... BUT HOW CAN I IF I DON'T HAVE THE PROPER CARE?"

Most dairy farmers and us COWS feel that if the essential MILK LAW were out, you people would be faced with an unsteady milk supply. When this happens, you might be forced to buy milk of inferior quality. It just makes sense that if the dairy farmer does not have sufficient income, he cannot afford to keep us cows clean and keep up the high cost of maintenance that is required by our laws for grade A dairies.

WE OWE A GREATER RESPONSIBILITY TO OUR CHILDREN THAN WE DO TO THE POLITICIANS!

Milk is a perishable item which must be handled very carefully and processed properly. It is the most necessary food item on your family table, where it must arrive fresh and pure to protect your children and the public welfare.

- THE MILK MARKETING ACT PROVIDES A FAIR DEAL FOR BOTH YOU AND THE DAIRY FARMER!
- THE MILK MARKETING ACT, PROTECTS YOUR STEADY SUPPLY OF PURE AND WHOLESOME MILK!
- THE MILK MARKETING ACT HAS SERVED YOU WELL FOR OVER TWENTY YEARS!
