is the hard-working dairyman. Besides, milk prices are all bound up with MILK SANITATION. And, on top of that, milk is all bound up with public health.
There will be an initiative measure to close coastal streams south of the Columbia to commercial fishing.
That's an ancient battle. Over the years, I've come to the conclusion that Oregon's coastal streams, except possibly the Columbia, are worth more in DOLLARS for sport fishing than for commercial fishing. I'm not too sure it wouldn't be true in the case of the Columbia. Sport fishermen spend a tremendous amount of money wherever they can CATCH FISH.
So I'm going to vote for the bill.
Finally - There will be an initiative measure to establish daylight saving time in all parts of Oregon within the Pacific time zone.
Personally, all I want is the SAME TIME WHEREVER I'M GOING. I'm getting bone-weary of wearing my watch out changing time whenever I leave home in the summer. If, by election day, I'm pretty sure California and Washington are going to stick with Daylight time, I'll vote YES.

OFFICERS OF THE Full Gospel Fellowship Association which brought together some 20 association members from all over the county for a luncheon meeting at the Winema Hotel Thursday are, from left, the Rev. W. D. Bigby, vice president; the Rev. Keith L. Hume, president, and the Rev. Harry Ayers, secretary-treasurer.

Psychosomatic Surgery May End Your Troubles

By ALTON I. BLAKESLEE AP Science Reporter
NEW YORK (AP)—Your next operation can be made easier — and you might not talk about it so much afterward — if your doctors tell you all about it beforehand.
That is the message presented today at the first annual meeting of a new medical organization, the Academy of Psychosomatic Medicine.
Psychosomatic means pains or ailments caused by emotions or feelings or fears, rather than actual physical faults or disorders.
The new academy's two-day session is devoted to psychosomatic aspects of surgery.
If you need an operation, the doctors should give you a guide map and timetable of all that will happen to you, said Dr. William Kaufman, of Bridgeport, Conn., academy president.
He said the foreknowledge will help you over the rough or unexpected spots and probably even make it less painful.
"The less discomfort you expect to have, the less you probably will have," he said.
Much of the difficulty, he said, can come from the fact that doctors or nurses do things to you which you don't expect or which you find distasteful or frightening.
Knowing in advance that those things are commonplace and ordinary can help you accept them and help relieve the fears and anxieties which normally come with having to face surgery.
Many persons feel their chronic health dates to some operation, he said.
They probably are actually suffering from emotional upsets or emotional crippling from some operation for which they were not fully prepared.

Steers Show Slight Drop

CHICAGO (AP)—Hogs ended this week with relatively small losses after having broken sharply on Tuesday and Thursday. Final prices on barrows and gilts were steady to 15 cents lower and on sows steady to 30 cents down.
Prices on Thursday fell to the lowest level since Jan. 2, 1953 with the top at \$18.85. There was a good recovery Friday with the closing top \$19.25.
Salable receipts of hogs at Chicago were about in line with the previous week but there was a slight increase in the movement at 12 markets. Wholesale pork prices changed very little.
In the cattle section, mature steers ended steady to 25 cents lower while yearlings as well as heifers were steady to 25 cents higher. More than 50 per cent of the week's supply arrived Monday when salable receipts totaled 28,000. Top on prime steers for the week was \$28.25.
Lambs last about \$1.00 but yearlings gained 50 to 75 cents in the sheep section. Receipts showed a modest increase over last week.

Portland College Gets Class Okay

PORTLAND (AP)—Portland State College was given permission Friday to hold a class at the nearby State Office Building.
The college administration made the request because of lack of space at the school's plant.
This year's enrollment is 2,338 day students — 700 more than were registered last fall and 400 more than the State Board of Education provided for in its current budget.
Enrollment in night extension classes is 3,100 — approximately the same as last year.

ELWOOD SINE
Independent Candidate for County Commissioner
Courteous - Honest - Efficient
VOTE 119 X ELWOOD SINE

HELLO FOLKS,

Thought I'd drop a line so we could get acquainted before election. I have been a resident of Oregon for 24 years and attended Allamont and Klamath Union High Schools. I am married and have two sons, one a graduate of Klamath Union High School, the other is a student of Shasta Grade School. Having been employed by the county the last two years, I believe I see where the working conditions for the employees could be improved. If I'm elected I would work for better road and equipment maintenance, thus avoiding new purchases. I would like to see the purchases of the county put on a competitive bid basis, giving the local merchants an equal chance at all sales, and giving our Klamath County residents an equal chance at disposal of all surplus equipment by placing it on sale by competitive bids. Hoping to have a more courteous, cooperative, and efficient administration in the future, and thanking you for your interest, I remain— Respectfully Yours, Elwood F. Sine
