### Press Said Big Influence

LONDON (AP) — Newspapers still set the pace for creating and influencing public opinion, Dr. Cyril Garbett, archbishop of York, says. The press, he says, leaves a deeper impression than either radio or television.

"I sometimes hear that the press no longer has the influence it once possessed," he recently told the Royal Commission on the Press.

"I am doubtful about this. The written word makes a deeper impression on the mind than what is heard."

Dr. Garbett, Britain's second ranking Anglican churchman, explained:

"The wireless (radio) is listened to by millions, but only a minority are trained listeners who could report accurately or give even an intelligible account of what they had heard only two hours previously."

"What is printed makes a far deeper impression. The written word which can be read and re-read at leisure helps to form the opinion of the more intelligent citizens who will become leaders in their locality or in the nation."

And, he added, "I am afraid that too much television gazing will leave only superficial and fleeting impressions."

Dr. Garbett, Britain's second ranking Anglican churchman, explained:

### Oregon Real Estate Group To Rule On Ullman Deal

SALEM (AP) — The State Real Estate Commission will decide at least four days before the election whether the Baker real estate firm of Curfman and Ullman acted improperly in connection with the sale of property to a veteran, Ragnor O. Johnson, real estate commissioner, said Thursday.

The hearing in the case, which involves Al Ullman, Democratic candidate for Congress, will be held at Baker next Wednesday. Johnson said there would be a decision within two days after the hearing.

Johnson issued a statement outlining the procedure of the case, asserting that "the charge of misrepresentation of the sales price to the Veterans Administration is the point of issue."

Johnson was critical of Ullman for making the complaint public. Hearings usually are held without any publicity, and Johnson said he had not intended to make any advance announcement of this one.

"The purpose of the hearing," Johnson said, "is to find out whether the firm of Curfman and Ullman had anything to do with influencing Ferrin M. Woll to report that he paid \$6,800 for his home, whereas the actual purchase price was \$7,750," Johnson said.

He added that if the firm did so influence Woll, there would be nothing criminal about it. But the firm could lose its license.

Johnson showed a reporter documents that Woll, a veteran, bought the home from Walter B. Adams. He showed an earnest money receipt that the purchase price was \$6,800, and a later receipt signed by E. R. Curfman showing the actual price was \$7,750.

Johnson said that all he wants to find out is whether the firm had anything to do with it.

At the time of the transaction, in 1947, the firm was headed by Curfman, who is Ullman's father-in-law. Ullman then was a salesman, but now is a partner.

Johnson said:

"This commission does not disregard its responsibilities under

### ALWAYS TIRED?

You may be dangerously taxing your entire system when you allow fatigue, nervousness—poor appetite and sleepless nights to drag you down because your body is vitamin and iron starved.

### Bexel Helps Build Rich Red Blood FAST!

Each high-potency BEXEL Special Formula capsule gives you 5 times the daily minimum requirements of iron; more than the daily minimum requirements of all the B-vitamins that doctors will tell you are essential for proper nutrition; plus Vitamin B12 and trace minerals. These wonderfully strengthening capsules are recommended for mothers-to-be, when a deficiency of iron and vitamin is vitally important to their health. Bexel Special Formula is especially important if you are over 40. Take 2 capsules daily for double potency! At all drug stores.

Penny for penny—you get MORE value in just one high-potency BEXEL Special Formula Capsule!

Feel better—Look better—Work better OR MONEY BACK! A MCKESSON PRODUCT

### THE DALLES DAM

Cordon worked for authorization of The Dalles Dam and got it started during the period of the Democratic no-new-starts policy in 1950—and he has the documents to prove it. Cordon has secured total appropriations of \$92,676,000, which is \$34,426,000 MORE than would have been appropriated had House recommendations prevailed.

### CHIEF JOSEPH DAM

As usual Cordon's effectiveness with both Democrats and Republicans in the U. S. Senate made possible larger appropriations than House recommendations. For this project Cordon has secured a total to date of \$104,766,000—\$10,122,000 more than House recommendations.

### ALBENI FALLS DAM

Cordon introduced legislation to authorize this project and secured funds for its continued construction while the Truman no-new-starts policy was in effect after the House of Representatives had refused to appropriate any funds for that purpose.

### COUGAR DAM

The 83rd Congress appropriated \$150,000 for planning the proposed partnership construction of this project on the South Fork of the McKenzie river. The Federal-Power-or-nothing crowd fought the project tooth and toenail even though the local partner was a municipal power district.

### JOHN DAY DAM

The John Day Dam between The Dalles and McNary Dams will cost around \$320,000,000 to build. In the last Congress Cordon introduced a bill to authorize construction of this dam with the local partners, public and private, putting up more than half the cost of the dam in the form of a prepaid power contract (preference going to Oregon) and the federal government retaining 100% ownership of the entire project as a part of the multiple purpose development of the Columbia River Basin.

### HELLS CANYON DAM

It is a matter of record that Cordon introduced the only Hell's Canyon authorization attempt which ever came to a clear vote on the floor of the U. S. Senate. At that time Cordon's proposal was opposed by the public-power-or-nothing crowd in the U. S. Senate. There are other suitable dam sites on the Snake. Why hold out for one that the Congress has refused to authorize? Let's get something built and start the generators turning! Re-Elect Cordon!

### A VOTE FOR CORDON IS A VOTE FOR THE EISENHOWER PARTNERSHIP PLAN, WHICH MEANS PAYROLLS, PROGRESS & PROSPERITY FOR THE PEOPLE OF THE PACIFIC NORTHWEST!

Not so long ago Cordon's opponent—the New Deal candidate for the U. S. Senate—was all in favor of keeping Hell's Canyon an undeveloped wilderness. Now he wants a dam built entirely by Federal funds provided by the taxpayers of the entire United States—or nothing! If this man has his way, not one additional kilowatt shall we have from the Snake river unless the long-suffering U. S. taxpayer punbles up every penny!

Recently this same State Senator, who now asks the voters to send him to Washington, D. C., jumped up in a meeting at Madras and stated he voted against the proposed Pelton Dam, which would have provided power for Central Oregon and would have been built entirely by private capital without cost to the taxpayers. He was a little confused there because the Pelton Dam proposal never came before the State Senate!

The Cougar dam on the South Fork of the McKenzie river is opposed by the New Deal candidate even though the "partner" in this project is a publicly owned municipal district.

Just what kind of power does this man want? It can't be electric power as such because he opposes everything but all-out Federal ownership.

We'll tell you. He wants a CVA with a stranglehold on the economic development of the Pacific Northwest! And the ultimate dream of the "planners" is a Federal Power Authority to operate nation-wide and control every river resource in the entire U. S.

Fantastic? Not at all. It is all part of a Master Plan. Eisenhower and Cordon say "let's get on with the job of developing the Pacific Northwest. Let's put our natural resources to work creating payrolls and prosperity NOW!" We need all the power we can develop through every source—Federal, Private and Public!

Before you vote, take a good, long look at Cordon's record. In his 10 years in the U. S. Senate he has stepped up Federal funds for water development in this area from 4.7% to 27.5% of all the money appropriated for the entire United States.

Could any freshman Senator do as well—especially one opposed to everything the Eisenhower administration stands for? Now what's all this guff about low cost Federal power? It's a fairy-tale pure and simple. In many classifications private power companies in Portland, Oregon sell power at lower cost than the TVA, which of course is subsidized by the taxpayers.

What about the Partnership Plan? Does the government pay for the non-income features? Yes, it does. But then it always has. There's nothing new or different about that. Bonneville, McNary, The Dalles dam—all multi-purpose dams built entirely by Federal funds—charge off a percentage of construction and operating costs to such public benefits as flood control, navigation, conservation and so on. When the New Dealers tell you Bonneville, for instance, is "paying for itself" they are not telling you the whole truth about these "hidden" costs!

Remember, political hot air has never yet produced a kilowatt. DON'T LET POWER POLITICS STAND IN THE WAY OF OREGON'S FUTURE!

A vote for Cordon is a vote for the Eisenhower Partnership Plan of orderly and comprehensive development of our hydroelectric resources!

On the left we list just a few of the power projects which Cordon has secured or has attempted to secure for the Pacific Northwest. We do not have space to begin to touch on the long list of irrigation projects and rivers and harbors improvement projects which Cordon has secured for Oregon including such projects as Haystack Reservoir in Central Oregon, the Talent project in Southern Oregon, the Coos County and Lincoln County Harbor improvements and several Columbia river navigation improvements, and many, many others.
