Women's Auxiliary Canton Crater 7

Halloween decorations on the refreshment tables added appropriate colors for a recent meeting of the Women's Auxiliary, Canton Crater No. 7.

Dainty cakes were served on plates featuring black cats, owls and witches. Vera Fritsch, Helen McCormack and Ona May Nells, committee in charge, served.

The reviewing ceremony was practiced in preparation for the visiting officer's visit next month.

All officers, members and cheerleaders are requested to be present at the next meeting, October 28, to further plans and practice for the visit of inspection.

Fort Rock

Mr. and Mrs. James Helm and Bobby Smart, Klamath Falls, arrived October 15 to go hunting with the McGee families. While here they were the guests of Mr. and Mrs. Howard McGee. On the trip the hunting party received quite a scare when they thought young 12-year-old Bobby Smart was lost. Bobby was on a stand and when everyone was getting ready to leave they couldn't find him. A search was made and loud calls were let out but still no Bobby. After about 15 minutes of hunting Bobby was found down by an old log sound asleep. The brush was quite high and had him covered.

two silhouettes in black

Both the old and new silhouettes in women's clothes are holding their own in the current market according to a report in Women's Wear Daily. Judging from the orders and re-orders in style houses, this fall's fashionable women will have a choice between wearing the Paris slimmer look with the unadorned waistline, and those styles with a more conventional rounded line. The selling success of both silhouettes is "evidence that in a period of fashion transition women can be enticed by a variety of types of clothes—provided the basic design is good."

a new cookie mold

It's new, different ... more practical ... and just in time for Halloween trick or treat cookies — it's made by FRIGEE-MAID and made so you can store, slice, and bake uniform ice box cookies in all the fancy shapes the kids ... and you too ... will love. Martha liked this mold 'cause it does away with wrapping dough in wax paper, and as far as I know, is the only one that will take dough mixed with fruit, nuts and candies, etc. These molds, handled by the Coast-to-Coast Stores, come in attractive colors, too. Think it would be a smart idea to stop in and see how easily they work and what fine results you'll get from one. They're priced at only 1.98. Incidentally, they have cookie sheets, too, and they're priced at 29c and up. Stop in at 11th and Main ...

light where you need it

Saw some new wall lamps at Klamath Furniture that hang just like pictures. They're called wall lightollers. Anyway, they're very clever and so attractive. Suggest you see these adjustable, high fashion lamps that bring bright, decorative lighting to your home WITHOUT USING AN INCH OF PRECIOUS TABLE OR FLOOR SPACE! There's a big variety of styles, shapes and colors and I think you'll really enjoy seeing them and picturing just how much more wonderful-looking they'll make your home! They're not out-of-this-world in price, either. While you are inspecting them, I'd suggest you also see the new tree and three-arm torchiere styles. Oh, yes, another good feature about all these lamps is that they are styled to match floor and table models. See them at 221 Main ...

new furniture ideas

Blues, ranging from deep blue to pastel blue, continue to ascend the color chart. Blue combined with tan or white will be seen more often in upholstery fabrics. It is a color to incorporate in your decorating plans.

Ease of maintenance is the rule in today's elegant furniture. New finishes, and old material put to new uses, accomplish the job of preserving the built-in beauty of your furniture. Plastics protect more table tops. Formica takes new patterns. Both are at home on even the most elegant furniture.

ship 'n shore blouses...

Just saw the new SHIP 'N SHORE blouses at Miller's — and what exciting things they've achieved in sleeves! Some have three-quarter push-up sleeves. Others are made with shortie barrel-cuffs for a breezy rolled-up look. Others are finished at the wrist with handsome pearl-linked French cuffs. Of course, sleeves are only part of this SHIP 'N SHORE story. As you probably know, they are famous for their soft-fitted little collars and expensive-looking details. REFLECTIONS FROM

HELYN BURGER — here from El Cerrito with her husband George on an extended stay during the potato harvest season — approached old friend Clara — (Shazie) Shaw with the question "How'd you like to go on a safari?" — Shazie responded affirmatively and enthusiastically without even asking "WHERE?" — the safari turned out to be a trip to see another old friend of both of them — Rose Poole — who lives at Harbor. They went over last weekend and had a grand visit with Rose and some of the other ex-KP residents who have settled in the colony on the coast.

"THE BROILER" and "THE OFFICE" — Brady Narey's new "plush" cocktail lounge and restaurant, formerly known as The Town Club — opened its doors Thursday afternoon for a hospitality hour during the grand opening. Now Everyone Can Play on Instrument

You can play the Hammond Chord Organ, yes, even though you have never played an instrument and cannot read a note of music.

We know this sounds impossible. But remember only a short time ago atomic energy and even radio were seemingly just as impossible. And the Chord Organ is just as revolutionary in its field.

Thousands of adults from every walk of life who have taken the time to investigate have found that everything claimed for the Chord Organ is true. And thousands have found an enchanting new hobby and an absorbing new interest in life.

Come into the store when you have fifteen minutes to spare. You may find it the most interesting quarter hour you have ever spent. We enjoy explaining the Chord Organ and you are under no obligation whatsoever.
