

PUMPKIN PIE is as traditional as roast turkey for this time of year. All over the country, kitchens will be redolent with the aroma of this favorite. It is almost certain, that if a poll were taken, the good old-fashioned custard-type pumpkin would win an overwhelming vote. Not only is the color, flavor and texture delightful, but the nutritive value should not be overlooked. The pictures and recipe come from Oregon Dairy Council.

Milk and eggs used in the preparation of pumpkin pie are valuable to daily health. Milk is high in calcium, which is a mineral difficult to find in quantity in normal servings of other foods.

It is always gratifying to find a dessert so good to eat, that also supplies amounts of necessary food nutrients. Whipped cream as a garnish lends exactly the right contrast in flavor and color. Many homemakers like to add a bit of spice and honey for sweetening to the cream.

- Fluffy Pumpkin Pie**
- 1/2 cup sugar
 - 1 teaspoon cinnamon
 - 1/2 teaspoon nutmeg
 - 1/4 teaspoon cloves
 - 1/4 teaspoon ginger
 - 1/4 teaspoon salt
 - 1 cup strained cooked or canned pumpkin
 - 1 cup milk
 - 2 eggs
 - 1 egg yolk
 - 1 egg white

Fabrics Lighter In Men's Clothing

Clothing fabrics for men's and boy's wear are growing lighter in weight and softer in texture, according to a Wool Bureau analysis of wool fabric production from 1948 to 1953.

Whether it's due to milder weather or better home and office heating, larger proportions of the nation's woolen and worsted mill production are concentrated in lighter weights, the bureau notes.

Production of worsteds—the manufacturing method in which the shorter wool fibers are combed out, leaving the long fibers to be tightly twisted into resilient yarns for hard, smooth-surfaced fabrics—is concentrated in two weight groups, 8 to 13-ounce fabrics and 13 to 16-ounce fabrics. The first group includes most light-weight suitings and sports coatings, while the heavier group includes fabrics used in regular weight suits and topcoats.

In 1948, the heavier 13 to 16-ounce group accounted for 52 per cent of all production of worsted wool fabrics, while the lighter group accounted for 40 per cent. In 1953, the relative importance of these weight groups was reversed and 56 per cent of worsted fabrics woven were in the 8 to 13-ounce group.

The most pronounced shift from worsteds to woolens occurred in fabrics weighing less than 9 ounces. The softer woolen construction fabrics as well as the worsteds, have grown lighter in the post-war years, the bureau stated.

Fall Shoes For Men

Charcoal has burst into full flame as the hottest thing in men's shoes this fall, according to Leather Industries of America.

Charcoal grey, charcoal brown and charcoal navy are some of the new leather colors which are being featured in both casual and dress shoes.

Black suede shoes, to go with black cashmere jackets and other "plush" and piled fabrics, are also popular, as are blacks with subtle undertones of red, blue, brown and grey which highlight shadings and lights and shadows.

Both casuals and dress shoes feature low toplines with emphasis on the streamlined low slung look. Single and double eyelet ties are widespread in smooth, grained and suede leathers in both casual and "office casual" styles. Buckles and tassels adorn many of the informal shoes.

The wide range of casual shoes also stressed soft glove leathers. The growing trend toward casualness in apparel has resulted in both a casual look in footwear styling and an easy, soft casual feel in leathers for shoes in this category.

BLACK for the brunch coat, but black that is gay with a field of flowers and just perfect for breakfast-getting. Sanforized cotton flannel, which can be washed repeatedly without shrinking, fashions this leisure-life style with comfortable push-up sleeves and a cover-up high neckline with becoming bow. Nice touch is the tating like edging down the front and around the hem. Sanforized number is from Worth Gold, New York, courtesy of the Bureau of Industrial Service.

HALLOWEEN SALAD

A party salad that doubles as a decoration at the youngsters' party is made by cutting a red apple (Delicious apples are wonderful) in half crosswise. Core the halves and sprinkle cut side with lemon or pineapple juice to prevent darkening. The candies are halves of bananas standing upright in the core cavities of the apples. Top the banana with mayonnaise and "light" the candle with a maraschino cherry.

1 8-inch unbaked pastry shell
Whipped cream
Mix sugar, cinnamon, nutmeg, cloves, ginger and salt. Combine with pumpkin; add milk. Beat eggs and 1 egg yolk well; add to pumpkin mixture. Beat egg white stiff, fold in. Pour into pastry shell. Bake in hot oven, 425 degrees, 45 minutes. Cool. Top with swirls of whipped cream and serve at once. Serves six.
