**Sheppard Lawyer May Call Doctor**

CLEVELAND (AP) — Testimony from a medical doctor now living in Phoenix, Ariz., may play a major role in the defense of Dr. Samuel H. Sheppard, on trial for his life in the bludgeoning death of his pregnant wife. This was reported yesterday by William J. Corrigan, chief defense attorney for the young Bay Village osteopath after the eighth day of the trial had passed with one jury seat still unfiled. While the state said twice that it was satisfied with the jury as it stood, the defense used up three of its six peremptory challenges and finished the day with only one challenge remaining. The state still had three challenges.

A peremptory challenge automatically removes a juror. Corrigan, talking to reporters after the session, said he planned to call on Dr. Charles W. Elkins, formerly chief neurosurgeon at Lutheran Hospital here to "prove the extent of the injuries Sam Sheppard suffered at the hands of the man who killed his wife." The defense lawyer said Elkins examined the 30-year-old Sheppard "a couple of days" after the osteopath's wife was found dead in her bed last July 4. Sheppard has insisted his wife was killed by a bushy-haired man who invaded their lakeshore home and knocked him unconscious when he tried to go to her aid. On the afternoon of July 4, another medical doctor examined Sheppard at the direction of County Coroner Samuel R. Gerber. That doctor, Dr. Richard Hexter, later testified at a coroner's inquest that a black eye just about summed up the injuries he found on Sheppard. Corrigan declared yesterday that Dr. Hexter "just didn't give Sam

a very thorough examination." He said he would prove that by cross-examination of Dr. Hexter "after the state presents him as a witness" and by testimony from other doctors. Another Cleveland physician who

took part in an examination given Dr. Sheppard expressed doubt, however, that Dr. Elkins would be willing to return from Arizona to appear at the trial. Dr. George Greene, surgeon for the Cleveland police department,

did not disclose the reason for his belief. Dr. Greene supervised an examination given Dr. Sheppard on behalf of the state shortly after he was arrested. He said the examination report agreed with Dr. Hexter that the

defendant suffered little more than a black eye. Dr. Sheppard was taken from his jail cell by a deputy sheriff last night for a brief visit at the bier of his dead wife's grandfather, Harry P. Blake.

Blake died Tuesday at the age of 94 and Dr. Sheppard had requested permission to attend his funeral today. The visit to the funeral home, conducted without advance notice, apparently was the sheriff's answer.
