Refugees Flee Red Viet Nam

SAIGON, Viet Nam (AP)—The head of the American aid mission here says more than \$15,000 refugees have fled North Viet Nam since the Geneva conference awarded the area to the Communist-led Vietnam.

"The refugees continue to move south at a steady rate," Leland Barrows reported last night. "How many more hundreds of thousands have chosen freedom, but have been unable to get out, perhaps will never be known."

Under the progressive schedule set up by the Geneva conference, the Vietnam is to take over the whole of North Viet Nam by May 1955.

SMOG

LONDON, (AP)—Crews of "smog-men" roamed the foggy streets of London today testing the makeup of the acid pall overhanging the British capital. The government project is aimed at finding ways to combat the smog, which in five days in 1952 killed off some 4,000 people.

FATALITY

BUFFALO, N.Y. (AP)—Anise Matlar, 55, was injured fatally yesterday when he stepped into an empty elevator shaft in the building where he lived and fell five stories. Police said he apparently thought he was stepping into the elevator car.
