

BOYS AND GIRLS CLUSTERED about this display of books arranged for them at the city library in recognition of National Book Week, November 14-20. Travel books are as popular as fiction with young readers. Here—Betty Ford and John Rhodes, both fifth graders at Conger School look over some new volumes.

HOME EXTENSION

FAIRHAVEN

By Mrs. Walter Sohrakoff

Hope Holbrook, county home extension agent, presented the project, "Touchups for Wood Furniture" to members and guests of Fairhaven Home Extension Unit, Wednesday, November 17 in Joan's Kitchen at the fairgrounds.

The December social party was discussed. Date is December 18 at Fairhaven School starting at 6 p.m. with a planned potluck dinner. Mrs. Robert Hurlbut and Mrs. Wayne Davison will be in charge. There will be a gift exchange for children only with a 25 cent limit.

Mrs. Joe Schuh of the Evergreen Garden Club had the cook books assembled by the Oregon Federation of Garden Clubs for sale.

Mrs. Robert Parker, 4-H chairman, told of the Safety Lite program that is being offered by the 4-H clubs for a small fee.

Mrs. Don Parks and Mrs. Fred

Speer were appointed program planning leaders and have a suggestions box for members to present ideas of needs and interests. These will be used to plan next year's program.

There will be a meeting on "Embossing Thin Metals" Wednesday, December 1, starting at 10 a.m. at the home of Mrs. Willis Homer, 3407 Emerald Avenue, sack lunch at noon.

Members are urged not to forget the bloodmobile which will be here in December.

New Atomic Plants Nearing Completion In East States

OAK RIDGE, Tenn. (AP) — The government is nearing completion of two huge atomic plants which already have greatly increased the nation's production of fissionable U235 for atomic and hydrogen weapons.

The two plants, costing nearly one billion dollars, are additions to existing installations here and at Paducah, Ky. A third facility now under construction near Portsmouth, Ohio, will add substantially to our U235 output.

The three installations produce U235 by what is called the gaseous diffusion process. This is a method of separating fissionable U235 from natural uranium.

The Atomic Energy Commission declined comment on progress of the three-pronged construction program, but it was learned reliably today that the Oak Ridge and Paducah facilities are in their final building stages. The Portsmouth plant was projected two years ago as a 4-year job.

An authoritative source said the plants include a vast amount of information gleaned from operation of the original U235 facility here which began production in February, 1945.

When the program was approved by Congress in July, 1952, the then chairman of the AEC, Gordon H. Dean, said:

"The purpose of this expansion program is to gain precious time

by achieving minimum stockpile objectives established by the Department of Defense, and to achieve them about 4½ years earlier than we would achieve them if we went at our present rate."

Dean told Congress time was a key factor in developing a family of atomic weapons for use by the armed services.

The government now has more than a million dollars invested in the gaseous diffusion facility here, hundreds of acres.

When completed, it will consume 15 billion kilowatt hours of electricity a year. The entire state of Tennessee, exclusive of Oak Ridge,

used 11 billion kwh in 1952.

Sam R. Sapir, manager of AEC's operations here and at Paducah and Portsmouth, says the U235 being produced in the three plants "is probably the greatest single deterrent to World War III."

"If, because of the availability

of this material, we are averting a third world war," Sapir added, "the cost is more than justified."

Sapir points out the material will not be wasted because it can be used as fuel in nuclear reactors and power plants.

One pound of U235 contains the

energy equivalent of 2,000,000 pounds of coal.

SAVE 10¢

ON A QUART OF
true mayonnaise
at its finest!

Three Fruit Salad—a good way to enjoy that rich, delicate flavor of Kraft Mayonnaise.

**NO COUPONS NEEDED,
BUT SUPPLY IS LIMITED.
GET YOURS TODAY!**

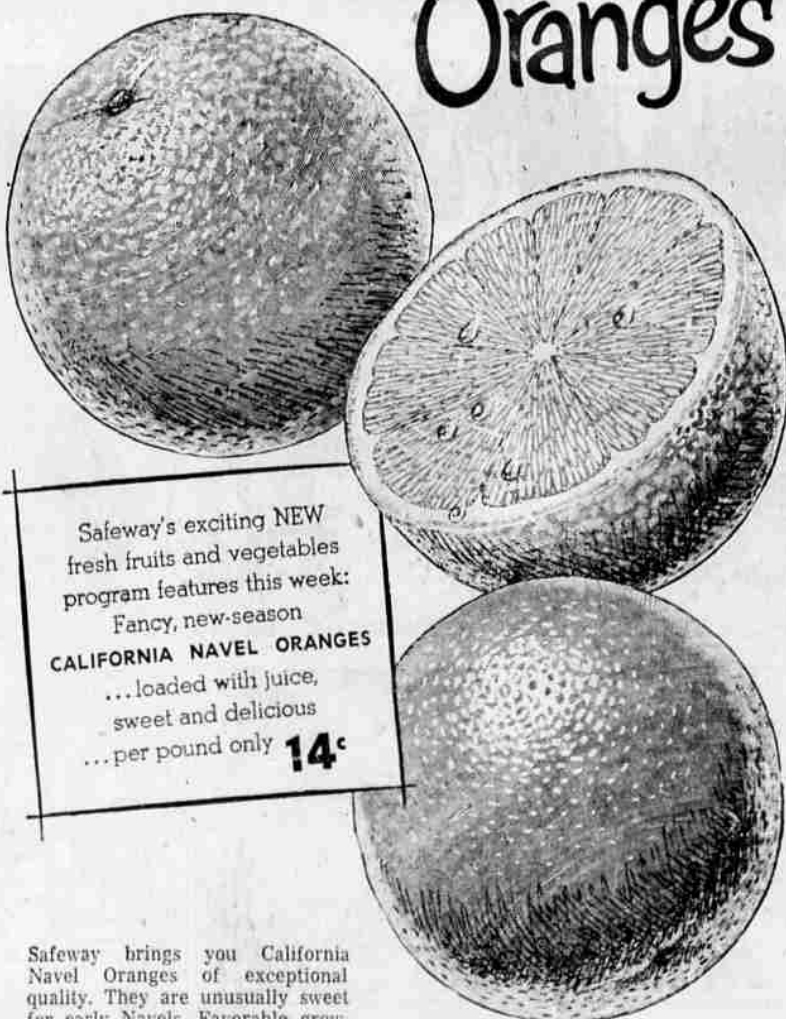

Here's a wonderful chance to make a big saving on the big jar of Kraft's delicious Mayonnaise.

Only the choicest ingredients . . . superfine oil, select eggs, fragrant vinegar and fine seasonings . . . these, and nothing else . . . go into Kraft Mayonnaise. Mixed satin smooth in a special beater, always Kitchen-Fresh, Kraft's is indeed true mayonnaise at its finest.

With the big jar on hand and costing so little, you'll be able to enjoy Kraft Mayonnaise in lots of delicious ways: Rich mixed salads, like potato, tuna, Waldorf. Lusciously smooth molded salads. Deviled Eggs. Sandwiches. Quick and easy dips and sauces. And just as it comes from the jar on fruits and vegetables.

Remember: no coupons needed . . . so top your shopping list with Kraft Mayonnaise today. This is an opportunity—and a mayonnaise—too good to miss.

Start your looking with Safeway Oranges

Safeway's exciting NEW fresh fruits and vegetables program features this week:
Fancy, new-season
CALIFORNIA NAVEL ORANGES
...loaded with juice,
sweet and delicious
...per pound only **14¢**

Safeway brings you California Navel Oranges of exceptional quality. They are unusually sweet for early Navels. Favorable growing conditions have resulted in a sugar content higher than existed last year at this time. Our own orange experts select them. And refrigerated, fan-circulated air keeps Safeway Navels almost orchard-fresh during shipment. Come get a bagful to know: Safeway's the best place in town to buy oranges!

All your money back
(without returning a thing)
on any fruit or vegetable
that doesn't please you
