

FOLLOW THE DOTS IN THE GIFT-SPOTTER

New sprayer fights cable-boring beetles. Astounding as it may seem, there's a kind of beetle that can eat right through the lead cover of a telephone cable. The beetle's so tiny it's hard to see. But the hole it leaves can let harmful moisture inside a cable. To prevent this, telephone people use a special repellent, which used to be brushed on cables entirely by hand. But the new sprayer—pulled by a man on the ground—puts the repellent on three times faster. By saving valuable time, this cuts the cost of guarding cables. So it's a big help in bringing you good telephone service that's high in value and low in price. Pacific Telephone works to make your telephone a bigger value every day.

Cancel the Mortgage on Your Home

Let me show you how Standard's low cost Mortgage Cancellation plan guarantees to "burn the mortgage" in case anything happens to you.

Under this plan, your home would be turned over to the family clear of debt—a home if they want to live in it, an income if they want to rent it, cash if they want to sell it.

Phone or write me for more information. No obligation of course.
