

THE LODGE AT CRATER LAKE looks out on the deep snow-banks with blank eyes from its boarded up windows after the hotel has closed for the winter and the park's only activity is furnished by the hordes of skiers.

BEAUTIFUL shapes of fragrance bottles make them ideal stocking gifts for mother and sister.

SET of toilet water and perfume in beautiful wrapping is traditional gift for women from men.

PETS' CANDY

Pets have their own candy. If your guests feel they must feed Fido a bonbon because it's Christmas, leave a box of doggie candy around.

Jewelry Items Top Gift List

On a list of any man's Christmas desires, precious gifts from the jewelry counter are certain to rank near the top.

Handsome accessory items are enjoyed by the men as much as by women, but in contrast to those in the female ranks, a man rarely buys for himself. If it weren't for gift occasions, he often would go without them.

All of which offers a moral to those with gift-shopping problems: The gift of a tie pin or cuff links may seem to fall into the "duplication" class, but few other things you can give are surer to be more welcomed. Ditto for watch bands and rings, cigaret lighters, buckles and many others.

Shoppers who choose a watch will find that the famous brand names, such as Longines-Wittnauer, Bulova, Hamilton, have many new models with modest prices. Some have sweep-second hands and brightly luminous dials. They're watertight, self-winding, shockproof, anti-magnetic and rustproof—in stainless steel or gold-filled cases.

Even if the man has a watch already, a new expansion watch band will rate you a roaring thank you. So will the many new cuff link styles or a handsome cigaret-cigar lighter.

Another sure-fire bet is a practical cigaret case. One new model, by Presto-Pak, has a unique pop-up top and a gleaming jeweler's finish.

Erector Set Popular Toy

One of the most traditional toys for boys is an erector set. Composed of small-scale bars, beams, nuts and bolts, it will grow to any number of structures, depending on the imagination of the boy.

There are, for example, plans for building merry-go-rounds, ferris wheels, derricks, bridges, airplane rides and windmills. But the erector set is not only a toy in itself. It will supplement a model railroad, a set of scale-model trucks and cars, toy soldiers.

Beginners get the simple, elementary sets. Boys of 18 will happily receive the more complicated models.

SPORTS car of styrene and fiberglass is propelled by bicycle drive that is adjustable to child's size. It's six and a half feet long, weighs 65 lbs. and comes in red, yellow or blue, all gold trimmed. Materials are same as today's adult dream cars.
