

EVEN THE NEWSPAPER CREW is lured outside when the big grader from the city came by to clean the ice and snow out of the gutters along Pine Street in front of the office.

AN EDGER SET STRAIGHT UP shaves the banks down when the road crews really get going at their job of opening up the highways.

ICE CUBES

Let ice cubes lick your Christmas cards. Place a few in a dish and wipe the adhesive flap on them.

CRANBERRIES

Let the children help trim the tree. The old standbys, strings of popcorn and cranberries, give as much thrill now to the juvenile workers as they did in grandmother's day.

HAIR DRYER

For the gal who lives away from home, a hair drier is a helpful beauty aid and makes a gleaming gift. The drier does double duty on wet fingernail polish.

PAINT SETS

As a little extra present consider one of the numerous numbered paint sets now on the market. They're relaxing for the nerves and good for grownups and children alike.

Boys Entering Cooking Play

Memo to social scientists: keep your eye on the toy makers if you want to find out what goes on in the young mind.

The traditional role of little girls as little housekeepers is being taken over in large numbers by little boys as well.

New play kits, selling furiously, are junior homemaking sets. Campbell Kid Cooking set, for example, is centered around the kitchen arts. The idea: plan and prepare a well-balanced meal. The set includes an aluminum sauce pan, cans of real condensed soup, and all the utensils necessary for the preparation and serving of a lunch or supper.

Among the toys there's even a scale model stove that works, and the kids can do their own cooking in the kitchen.

There's a cookie-baking set, with all the ingredients in miniature packages. And another how-to-cook set featuring molds and the makings for chocolate animals.

On the cleaning side (the boys don't go for them) are miniature broom closets with mops and scrubbing brushes and cleansers that mother uses, only in small replicas.

In addition, there's a vacuum cleaner set which works on battery power. There are also efficient simonizing equipment, dishwashing kits, and doll beds that have to be made up just like the real beds at home.

TRINKETS

Lead soldiers, a traditional Christmas trinket from years gone by, are still with us. Made by both British and American firms they appear fastened in rows in their boxes much as they did shortly after the turn of the century. There are many varieties to choose from.
