First prize will be \$25, second \$10 and third \$5. Judging will be made the night of December 23.

CONFERENCE

BELGRADE (AP) - Two of Yugoslavia's best known writers, Dobrica Cosic and Marin Francic, will attend a writers conference in Moscow.

Forest Service Unable To Grant Xmas Tree Permits

Commercial buyers of Christmas trees found them to be a short item in Oregon this year, according to R. L. Cooper, district ranger, U. S. Forest Service.

No applications for commercial cutting were granted for the Klamath district, although the office had more than 30 applications, he said.

"We were unable to supply the commercial cutters this year," Forest Service advertises bids in Cooper stated, "because we have been cut over in the past few years. The Forest Service is primarily in-

terested in growing timber and keeping each area fully stocked. While we have a good many areas that are overstocked, Christmas tree speculators don't want to cut from an over-stocked area where the trees grow so close together that they are not perfectly formed."

When commercial cutting is permitted in the Klamath district, the Forest Service advertises bids in September so the trees can be cut in October and November. Those trees are kept in cold storage or in

the shade and in a humid condition until they are offered for sale for the Christmas season.

Most prized tree in this area for trees go to California markets. The Klamath Indian Reservation has

provided a good share of the trees which were cut for commercial purposes this year. Other trees come from private land and other sources.

Announce New Way to Relieve Pain of Arthritis and Rheumatism Without Pills!

Greaseless, odorless cream penetrates deep—speeds up flow of fresh, rich blood into sore areas—actually helps drive away pain-causing congestion and pressure.

New York, N. Y. (Special)—Science has now developed an odorless, greaseless cream that acts in a new way to bring a new kind of relief from pains of arthritis, rheumatism, and muscular aches and pains. This new cream relieves these pains without the need of taking pills and other internal medicines that may upset the system.

Gently rubbed into painful areas, this cream penetrates so deep and completely that it actually vanishes. Quickly a comforting feeling of warmth develops and the whole painful area takes on a pleasing glow. This is striking evidence of the power of this cream to penetrate quickly and stimulate the circulation of the blood. This glow illustrates how it speeds up the flow of fresh, rich blood into the sore areas and actually helps drive away the pain-causing congestion and pressure.

146 British and French doctors are so satisfied with this new help for patients suffering from arthritis and rheumatism that they have prepared written reports of success based on hundreds of cases. Further, one of the leading arthritis and rheumatism clinicians in the United States has now confirmed the findings of these doctors.

Now for the first time this remarkable cream can be obtained without a prescription at drug stores throughout America—under the name Infrarub. The price of Infrarub is only 96¢ for a large tube. Infrarub is backed by the amazing guarantee that sufferers from the pains of arthritis, rheumatism, lumbago, neuritis, neuralgia or muscle injuries or sprains will get hours and hours of comforting relief or their money will be refunded in full.

Christmas trees is the Shasta fir which is called the Silver Tip Fir when cut for Christmas trees. It brings a premium price on the California market.

State Forester George Spaur in Salem stated that speculators in Christmas trees have found the

price of stumpage too high in many cases this year.

"Retailers, who must have well-formed Christmas trees to be successful, take a dim view of 'orchard run' trees at the going price of 50 cents each or higher," he stated. "The retail market is high-

ly speculative and he wants premium trees which means the privilege of culling.

"Difficulty in obtaining trees has created a definite interest in Christmas tree plantation and many have been started in western Oregon," Spaur commented.
