

"NO ROOM AT THE INN," the story of The Nativity as first presented over radio on "The Greatest Story Ever Told," will be heard again, for the ninth season, over the entire ABC radio network on the Sunday before Christmas, December 19, at 2:30 p.m. on KFLW. The story of the birth of the Christ Child, dramatically portrayed in this broadcast, is one of the outstanding performances of this weekly series, which has won the reputation of radio's most honored program. Churches, civic groups, hospitals and institutions make listening to "No Room at the Inn" a part of their holiday festivities, building this traditional program to an essential part of the season. "The Greatest Story Ever Told" has always been offered as a public service program, with no commercial or institutional messages.

Soviet Scientist Claims Two-Headed Dog Produced

MOSCOW (AP) — Soviet scientist claims he produced a two-headed dog but says it only lived six days after the operation. He's out to bring forth a harder specimen. Dr. Vladimir Petrovich Demikhov, of the Moscow Institute of Surgery, told an interviewer he grafted a puppy's head on a mature dog last February as part of a series of experiments in surgical techniques and rejuvenation processes. The scientist hopes his findings will point the way toward successful methods of replacing vital human organs. Soviet sources said Demikhov's dog, in its short life with two heads, exhibited some odd traits: Both heads showed the same desires at the same time. When the older (original) head wanted to eat, so did the younger. When it was hot, both heads panted. But emotions were not always identical. When the old dog, for example, tried to shake off the puppy's head, the unwanted head bit its host. Dr. Demikhov reported he is planning to produce another two-headed canine, and he expects this experiment to be a success. He said his first such creation died because of imperfections in the operative technique which he believes have been overcome. Demikhov and his assistants are carrying on other experiments with dogs. They claim to have restored youth to one ancient animal through the transfer of suprarenal glands from the kidney of a young dog. The oldest reported enjoying the third year of its second youth.

The head, shoulders and front paws of a puppy were separated from its body—and from heart and lungs—and sewn onto a mature German shepherd dog on its right side, about six inches below the ear. The new head was connected to the old circulatory and respiratory systems. For two days there were no signs of life, then suddenly both heads yawned simultaneously.

ARRIVALS
SEATTLE (AP) — Three Navy transports will arrive here today and tomorrow with 6,247 passengers from the Far East, all but 461 of them members of the armed forces. The ships are the Gen. William Weigel, today, and the James O'Hara and Gen. G.M. Randall, tomorrow.

PIRATES
MANILA (AP) — A pirate ship that preyed on small merchant vessels plying between the Philippines and Borneo has been captured and its captain killed, consular headquarters here said today. The vessel was taken in a gunfight while at anchor.
