Take it from me girls... stay Smart and Healthy

By BESSY, THE BASIN BOSSY

Now that you've got your curly locks clipped down short to a neat crew cut girls, let 'em grow! I see where the latest hair styles are more than a mile bit longer than the big rage of the past year — the Italian Boys, and so on.

Now they are about as long as they should be if you just haven't had a chance to get around to the hairdresser's for a couple of months and your Italian Boy's developed an almost girlish figure again.

Seems only natural that the girls, with long-haired head protection for years, would find some way to keep warm again this coming cold weather.

Incidentally sleeping warmly on cold winter nights? Frankly, I sleep best with the wind howling outside the barn, and I know lots of you folks like to cuddle up 'neath the blankets and sleep out a good storm, yourselves.

But if you haven't seen or tried them, ladies, there's ski-pajamas which are the next best thing to red flannels and a whole lot more feminine. Cozy and snug, they'll assure you of comfort and sweet dreams while King Winter batters at the doors and windows.

To the opposite extreme, there are some mighty dainty nighties for nightshirt lovers which include a short-waisted nightie then ends at hip length, plus some matching shorts.

Brrr. They'll have to wait for fairer climate.

Take it from me, Grade A milk is a good sleepy-time nightcap. Warm it and try it. You'll dream wonderfully.
