STOCKS

NEW YORK (AP) — The stock market declined Monday in a slow session. Early progress turned into a quiet retreat in the late afternoon.

Prices were down between 1 and 2 points. Plus signs as large as that persisted.

Trading at an estimated 1,600,000 shares produced one of the slowest days this year. Friday's total was 1,690,000 shares.

Railroads and motors were lower while oils and coppers held to their gains. The rest of the market was thoroughly mixed.

Interest in the market was at a low ebb with no group activity of note. A number of individual issues were in the spotlight from time to time but none created much of a diversion.

Showers In East Break Heat Wave

By UNITED PRESS Thunderstorms broke the back of a scorching heat wave in the East today. But the price was high. Accompanying storms killed at least 12 persons, terrorized coastal dwellers and cut power lines.

In Albuquerque, N. M., meanwhile, heavy rains sent roaring flash floods into residential lowlands and chased 25 persons from their homes. The residents were still digging out from under a million dollar flood which struck them similar rains fell last week.

The cool air spread southeastward into New England, the Middle Atlantic states and fringes of the Deep South.

Temperatures dropped from 10 to 20 degrees from the Northern Plains to as far south as the Carolinas and the northern portions of Georgia, Alabama and Mississippi.

FISHERMEN DROWN Four Arizonans on a fishing trip were believed drowned in the choppy, wind swept waters off Crescent City, Calif.

They disappeared early yesterday and apparently were carried out to sea as they fished in turbulent waters near the mouth of the Klamath River in a dense fog. The party's 15-foot skiff was found overturned and bobbing in the surf. No bodies were recovered.

At nearby Bakersfield, Calif., earthquakes jolted many Kern County residents last night but authorities said no damage or injuries had been reported.

Police spokesmen said they believed the tremors were aftershocks of a major quake that crumpled the Bakersfield business district and killed two persons three years ago.

HURRICANE DANGER

In the Southeast, leary coastal residents kept a close watch on hurricane Connie, which was moving west-northwest past the British West Indies.

The cool air brought the first decent "sleeping" weather last night to the Midwest and East in weeks. But it had its costly side too.
