

### Red Asian Leaders Demand Unified Korea Conference

TOKYO (AP)—Top Red Chinese and Korean leaders chorused a new demand yesterday for a Far East conference to unify Korea.

Red China's Premier Chou En-lai and Commander in Chief Chu Teh both called for the conference, provided for in the Korean armistice.

North Korea's Premier Marshal Kim Il Sung went further and suggested a mutual North-South undertaking not to use force, and "speedy convening" of a North-South conference to "discuss the question of Korea's unification."

The Peiping radio, heard here, carried all three speeches, made on the occasion of the 10th anniversary of Korea's liberation from Japan.

Chu Teh, speaking at a rally in Pyongyang, the North Korean capital, said Communist China was in "complete agreement" with the "positive proposals" put forward by Kim and that the "Chinese people... will do their utmost to support them."

"We consider it highly necessary to hold a Far Eastern conference... to discuss the question of unifying Korea by peaceful means," he declared.

Chu scored efforts of President Syngman Rhee of South Korea to get the Neutral Nations Supervisory Commission truce teams out of the country and said bluntly:

"No attempt to wreck the commission will be tolerated. Rhee contends the Czech and Polish members on the truce teams are spies. After eight days of violence which injured 44 American soldiers and 100 Koreans,

Marshal Kim, who customarily refers to the South Korean government as the "Rhee gangsters," adopted an unusually mild tone. He proposed reducing armies in both North and South "to the minimum" and spending the money and using the manpower thus freed for "peaceful construction."

In a bristling speech only the day before, President Rhee had told a Seoul audience that conferences with Communists merely gave them time to consolidate gains and plan new aggression.

THESE "GRUNTERS," registered Durocs, will be shown by Ronnie Peterson, 17, Tulelake FFA member at the Siskiyou County Fair in Yreka on August 18-21 and again at the Tulelake-Butte Valley Fair in Tulelake September 4-5-6. A brother, Jerry, 15, will exhibit registered Berkshire hogs. He is also an FFA member.

### India Workers Stage Strikes

NEW DELHI, India (AP)—General strikes swept New Delhi and Bombay today in protest against yesterday's violence and bloodshed in Portuguese India.

Business in Bombay was virtually paralyzed as crowds demanding military action against the small Portuguese colonies fought shops and restaurants to close. Armed police and troops guarded public vehicles.

In New Delhi, workers paraded with anti-Portuguese banners.

Several thousand "nonviolent" Indian nationalist demonstrators marched into the Portuguese colonies of Goa, Damao and Diu yesterday on the eighth anniversary of India's independence from Britain.

They sought to arouse popular support for the Indian campaign to take over the areas, the last foreign territories in the country.

Reinforced Portuguese border guards opened fire on some of the marchers and drove others back into India with clubs. Many were arrested.

The Indian demonstrators called themselves Satyagrahis, followers

of the late Mohandas K. Gandhi's tactic of nonviolence and passive resistance. Organizers of the march finally suspended further infiltration and said they would devise "a new strategy."

Estimates of the number of demonstrators dead ranged as high as 21, with many more reported wounded or missing in the jungles. The Indian government radio said the killing of 12 marchers had been confirmed, while in Nova Goa an official Portuguese spokesman said at least 13 Indians were killed and probably 30 wounded.

The India radio said it was believed the Portuguese had carried away many of the dead.

### Hurricane Test Airplane Used

JACKSONVILLE, Fla., (AP)—Navy hurricane hunters gave their new weather laboratory plane its first chance to shine in an all-night flight over, around and across Hurricane Diane.

The Constellation took off from Jacksonville Naval Air Station early last night and aimed its million dollars worth of electronic equipment at all facets of the hurricane.

This is the weather laboratory that the Navy says it hopes will provide more information on tropical storms and get it a lot easier than equipment used in the past.
