

FURNITURE THAT IS WASHABLE is a boon to homemaking. Cohama has been long known for its leadership in the weaving of man-made fibers. The new Chem-thread for upholstery material is woven of a combination of saran mono and multi filaments and staple fiber which give the fabrics a richness, a translucence and an elegance rare in this type of fabric. These Cohama Chem-thread fabrics respond well to cleaning, coming up fresh and new looking, thus adding years of wear to upholstered pieces. Saran lends to these fabrics properties which make them resistant to fire, mildew and moths, virtually stainproof, and best of all, washable. This modern sectional sofa by Heywood-Wakefield was introduced early this year.

Economical Pot Roast

You can cut your food costs if you take advantage of the plentiful supply of excellent cuts that offer maximum food value at minimum cost.

One of the best these days is pot roast of beef. It's as easy to cook as it is to boil water and even new brides will find it drawing the praises of her new husband.

Here's how: Select four or five pounds of beef chuck, rump or round. Rub the meat with salt, pepper and flour and brown on all sides in a little hot fat in a deep, heavy pan with cover.

Slip a low rack under the meat to keep it from sticking to the pan. Add 1/2 cup of water and cover pan closely. Cook slowly over low heat until done—about three hours.

If you want to have a whole dinner come out of one pot, add potatoes, carrots and onions during the last hour of cooking.

Bring on the dinner dishes—you're ready to eat.

DEODORIZE

When arranging fall flowers like mums in a deep vase, strip the stems of leaves because they are the first to decompose and create an odor. Add a little Clorox or Purex to the water and there will be much less odor. Don't change the water in the vase—just add to it to bring it up to the proper level.

OUTDOOR CHEF

A real help to the outdoor cook of the family is a pair of cotton-astbestos gloves. These barbecue mitts are made for heat protection, constructed of sturdy blue denim with palm and inner fingers of woven asbestos. The gloves come in one size only, cut large to fit all hands.

Corn Casserole

Here's a recipe you can use with fresh corn cut off the cob, frozen corn or a No. 2 can of canned corn.

- 2 1/2 cups corn
- 1 1/2 cups grated raw carrot
- 1/2 green pepper chopped (optional)
- 1/2 cup grated onion
- 1 cup medium cream sauce
- 2 eggs beaten
- Salt and pepper to taste
- 1 cup grated cheese

Mix together the corn, carrot, pepper and onion. Blend eggs, salt and pepper into the cream sauce. Mix with vegetables. Place in buttered casserole and sprinkle cheese on top. Bake at 350 degrees for 45 minutes.

FALL GLAMOR calls for a glamorous scent, so change to Fame, straight from Paris. Corday's Fame perfume comes in a gilded flacon. It's a glamorous gift for the college girl for the first fall formal and to wear straight on through her exciting year on the campus.

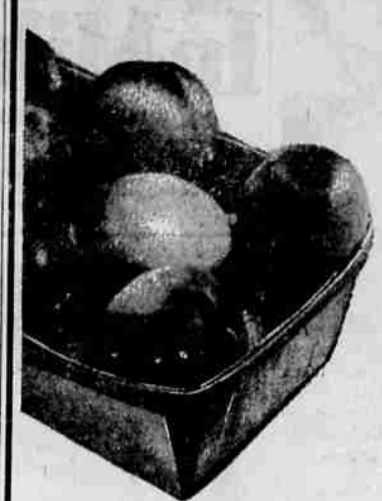

NEW CARPETS

There are two important considerations to remember in installing your new carpet—a smooth floor and a good rug cushion. The floor should be smooth with no protrud-

ing or uneven boards. These floor defects cause worn spots in the carpet. The rug pad should be firm to smooth out slight irregularities in the floor and absorb part of the pressure of foot traffic.

RUG CARE

Regular care keeps a carpet fresh and beautiful. A carpet or rug should be cleaned daily and spots and stains should be removed immediately to insure long life and satisfaction.
