REFLECTIONS FROM

AS I REMEMBER the story—Gene (Mrs. Ray Oldenburg) and Perle (Mrs. T. M.) Medford, before they took off for the islands, had a date all set to meet Gene's sister Trude (Mrs. Charles) Moss, who was to follow them over there later from her home in Vancouver, B.C. — Later, a letter comes from Trude, saying that she is going to arrive with a woman friend of hers from Vancouver — and that "she knows that Gene and Perle will like her" — so island-time went by and a letter came from Gene's other sister, Marg Banks, who also lives in Vancouver — The friend seemed to have impressed her as more than a bit above average — in fact she wrote "Trude is bringing a friend from Vancouver with her — and I DO hope you'll like her — she's really a LOVELY girl!" — However Trude was still the one they were primarily interested in meeting — they KNEW that they liked HER! — At plane time Perle, Lois Stewart and Gene were waiting with leis to drape the new arrivals — and when passengers started getting off Gene soon spotted Trude and someone in yellow apparently was with her — When Trude got to them Gene was all ready with her greeting — and greet Trude she did — with the Hawaiian hospitality floral prop and flower destroying hugs — and was still in the midst of it when a little voice near her said "hello — I'm Trude's friend" — "friend" finally got through from ear to brain — and when she turned around she was looking straight into the eyes of her own sister Marg Banks! — a LOVELY girl just FULL of pranks! who, up until the moment she said "hello" was absolutely invisible to Gene — who was really wasn't as hysterical at all as eyewitnesses tried to make out later.

MENTIONING Hawaii brings New York to mind — and if the squirrel crusaders think they had a "cause" — what is happening in the Rumble, a wild tract of land just south of 79th St — between East Drive and West Drive will have bird lovers all over the world mobilized for bloody battle

down to every last man woman and child who ever saw and reported a "first robin" — In THAT city the Commissioner of Parks it seems plans to tidy up the Rumble — tame its wild state and drive away and keep out the more than 200 species of traveling birds who have made it a favorite sanctuary for stops of varying duration on migratory flights — Bird watchers and birds "must go" to make room for a recreation center where shuffleboard will occupy idle hours of bored older people — I don't know — but I think shuffleboard is "for the birds" — and can't for the life of me imagine what "shufflebirds" are for.
