Morocco Chief's Removal Said Planned By French

By JOSEPH E. DYNAN
PARIS (AP)—The French government was believed taking steps today to ease Sultan Mohammed

Ben Moulay Arafa off the Moroccan throne. The embattled ruler issued another statement saying God would have to remove him.

Premier Edgar Faure's plan for giving Morocco a measure of self-rule was approved unanimously by the French Cabinet last night. It reportedly calls for removal of Moulay Arafa and establishment of a three-man regency. A spokesman said the program would be put into effect immediately.

Morocco was generally quiet. Moderate nationalist leaders urged their followers to be patient, saying at least a partial victory was at hand. Terrorists had called for a general strike but response was slight.

The ouster of Moulay Arafa was the primary condition laid down by Moroccan nationalists for any settlement in the stormy North African protectorate. French officials gave no indication of how they expected to get the Sultan out of the palace in Rabat.

2. Negotiation of political, economic, strategic and cultural accords between the new Moroccan government and France.

3. Transfer of former Sultan Mohammed Ben Youssef from exile in Madagascar to France.

Ben Youssef, exiled by the French two years ago because of his nationalist tendencies, agreed last week to the settlement. He

Reds Predict More U.S. Visits

NEW YORK (AP)—Leaders of the Russian agricultural mission predict their two-month tour of the United States and Canada will be followed by more and more U.S.-Russia exchanges.

Their leader, Vladimir V. Matskevich, said: "It is difficult to make out what was the most interesting part of the United States. The most memorable impression was that of the hospitality of the American farmers. They tried to show us everything on the farms and all their methods."

Eleven members of the group held a final news conference at Idlewild Airport last night before leaving for home.

Texas City Asks Relief

RAYMONDVILLE, Tex. (AP)—Flood-damaged Raymondville asked for help today as the lower Rio Grande area eyed heavy clouds with apprehension.

Alexander V. Tulupnikov, director of the Soviet's All-Union Scientific Research Institute of Agricultural Economics, told reporters before the news conference that the visit of the 12-man mission to the United States will be "of great benefit to our two countries."

Forecast indicated more rain. The state civil defense office warned yesterday that Gulf squalls that sent rain-laden clouds scudding over the low border country might bring more floods such as the one that has ravaged this south Texas town for days.

This sentiment was echoed at the conference by Matskevich, the Soviet Union's first deputy minister of agriculture, and Arkady Sobolev, head of the Soviet Union's permanent delegation to the United Nations.

City and county commissioners last night appealed for aid to this town of some 10,000 persons as more rain fell. More than 4 inches hit nearby Weslaco. Lesser amounts peppered the whole rich vegetable and citrus-growing area.

Matskevich said the group's most valuable souvenir of the trip is the 60 head of Santa Gertrudis cattle and three Herefords they are having shipped to Russia. Yuri P. Golubach, Soviet deputy minister of state farms, remained behind to complete arrangements for purchase of the Santa Gertrudis cattle in Texas.

Tropical storm Gladys last week left three to four feet of water over a 50-block area of Raymondville. Much of the water still remains and a blocked sewage system caused concern over health. A powerful odor spread over the town.

Typhoid vaccine was administered to thousands. Insecticides were sprayed over the area, and part of the water which sent about 900 persons scurrying from their homes was pumped away.

Raymondville Mayor Mary Frost said she was getting calls from all over Texas offering help for the flood-stricken, most of whom are housed in an old migrant labor camp near the town's outskirts. She said the immediate problem was how to feed, house and clothe the evacuees. The Red Cross was helping.

Tom Park, formerly of Hamilton, Ont., and now of Lakeview, Calif., who left Youngstown at 9:30 p.m. EDT yesterday was more than half way across by 7:30 a.m. today. He was about 14 miles from Toronto.

Brenda Fisher, an English woman who proved her worth as a distance swimmer by twice swimming the English Channel, was about six miles behind Park. She entered the chilly lake at 11:24 p.m. last night.

Marilyn Bell, a 17-year-old Toronto schoolgirl, is the only person to have completed the swim. She did it last year.

Marathon Stars Attempt Crossing

TORONTO (UP)—Two marathon swimming stars were swimming strongly toward Toronto today in a bid to become the second to cross the lake from Youngstown, N.Y.

Tom Park, formerly of Hamilton, Ont., and now of Lakeview, Calif., who left Youngstown at 9:30 p.m. EDT yesterday was more than half way across by 7:30 a.m. today. He was about 14 miles from Toronto.

Brenda Fisher, an English woman who proved her worth as a distance swimmer by twice swimming the English Channel, was about six miles behind Park. She entered the chilly lake at 11:24 p.m. last night.

Marilyn Bell, a 17-year-old Toronto schoolgirl, is the only person to have completed the swim. She did it last year.

Renowned Title May Disappear

WASHINGTON (AP)—A title that has been borne by world-renowned Americans from Benjamin Franklin to Perle Mesta seems about to disappear.

It's "envoy extraordinary and minister plenipotentiary."

Until 1893 this was the highest title given any U.S. diplomatic representative. In that year the first U.S. ambassador was named. He was Thomas Francis Bayard, accredited to Britain's Queen Victoria.

Since then the upgrading of legations headed by ministers to embassies headed by ambassadors has gone on apace. The total of embassies reached 72 last week with the promotion of the U.S. legation to the grand duchy of Luxembourg—where Mrs. Mesta had served as minister for a time until 1953.

There are only five U.S. legations left—in Hungary, Romania, Iceland, Yemen and Tangier.

Cement Mixer Proves Handy Fire Escape

SANTA BARBARA, Calif. (UP)—Two firefighters battling a major timber and brush blaze here escaped a fiery death by jumping into a cement mixer filled with water and closing the cover.

Frank Martinez, of Santa Barbara, was driving the cement mixer, temporarily being used as a tank truck, on flame-covered highway 150 near the Paradise Camp area yesterday when the truck's open cab was set afire.

Martinez climbed in to the cement mixer, filled with water, and pulled down the cover. A few minutes later, another fire fighter, Vincent Torres, rapped on the mixer and sought refuge. Torres' truck also had been set afire on the highway.

The men stood in water up to their necks for a half hour before fleeing the area. The cab of the truck was destroyed by fire.

was reported to have pledged that he would abstain from political activity on his own behalf pending a decision by Moroccans themselves on his future status. The Cabinet action met the Sept. 12 deadline set by Faure for getting a Moroccan settlement under way. The Premier hopes to avert trouble from the Arab-Anian nations in the U.N. General Assembly opening Sept. 20.

HISTORIC ACCLAIM!

Today, more whiskey buyers than ever enjoy Old Crow, America's century-old favorite—now in a milder, lower-priced 86 Proof bottling, companion to the historic 100 Proof Bottled in Bond!

OLD CROW
