

RACER - SLIM is this sheath from Anne Fogarty's New Champions Collection being shown in New York. Pared down sleeves and high neck, carefully edged with tulle fringe, the model comes in Blue Grass tweed in dapple grey or oatmeal. It is a Margot dress.

NEWEST JEWEL for your handbag is the longer, slimmer new Fabergette, designed for Faberge and filled with your favorite perfume. Sheathed in a gleaming golden filigree case and gift boxed in the French manner, you have your choice of four famous fashion fragrances: Aphrodisia, Woodhug, Tigress or Act IV.

CRANBERRIES

The Department of Agriculture predicts a bumper cranberry crop of over one million barrels for this year. Between 55 and 60 per cent of the nation's cranberries are grown in Massachusetts. Following this state in production are New Jersey, Wisconsin, Washington and Oregon.

An annual Cranberry Festival is held at the Edaville Cranberry Plantation at South Carver, Massachusetts. The traditional American fruit will receive its annual harvest time welcome on September 24 this year. Visitors will see the brightly clad pickers, browned by nature or from the warm Indian summer sun, lean with their wooden scoops to comb the sparkling berries from the vines. The sway of their bodies and the swish, swish of the scoops create the rhythm of harvest time. The Cranberry Belt Line (a narrow gauge railroad) takes passengers on a six-mile tour of Edaville's 210 acres of bogland, stopping to pick up freight loads of newly scooped berries and carry them to the screen house. After a chicken barbecue, the Cranberry Boy and Girl of the Year will be introduced and receive their scholarship awards.

The annual festival is sponsored by U. S. and Canadian cranberry growers through their cooperative, National Cranberry Association, and attracts visitors from all over the country.

We're Celebrating Our 32nd ANNIVERSARY

as your FORD Dealer in the Klamath Basin!

Our association with the Ford Motor Company, as Ford dealers in the Klamath area, began just 32 years ago . . . in September, 1923, buying the E. R. Danner Motor Company. Showrooms and service facilities were located at 8th and Klamath, the present Sears location. In 1924 the agency was moved to 9th and Klamath to enlarge the showroom and service facilities. On April, 1930 we moved to our modern location, the Balsiger building at Main and Esplanade, which is considered one of the most modern, well arranged, well equipped Ford sales and service operations on the Pacific Coast. Balsiger Motor Company now offers employment to 70 people on a full time basis.

We are proud of Klamath Falls and the Klamath Basin and pleased to have contributed our small part to the growth and expansion of this area. We are humbly grateful to you . . . the people of the Klamath Basin, whose patronage and acceptance of Ford and our service facilities have enabled us to grow and to make this anniversary possible. Our policy has always been, and will continue to be, this: To offer a quality product, backed by the best dealer service we can provide, and no misleading "high pressure" tactics. Thirty-two years may seem like a long time, but with your continued support we hope to be here thirty-two MORE!

We extend to you a personal invitation to visit our showroom Friday, Sept. 23 to see our new '56 Cars and Trucks!
