BALSIGER MOTOR COMPANY, Main and Esplanade, unveiled the new Ford truck line for 1956 today. Ford's 1956 F-750 Big Job is a heavy duty truck with a gross vehicle weight of 21,000 pounds. High performance is obtained with a special heavy duty 168 horsepower Y-8 engine equipped with a four-barrel carburetor. It is one of the most powerful engines in this weight class. Five different wheelbases and power steering are available on this model.

Liberia Pastor Visits Klamath

The Rt. Rev. Bravid Washington Harris, Eighth Missionary Bishop of the Episcopal Church, in Liberia, West Africa, will be an honored guest with Bishop Lane

THE RT. REV. HARRIS

Barton, Bend, bishop of the Episcopal Eastern Oregon Diocese, at a parish family meeting and potluck supper to be held tonight in the parish house of St. Paul's Episcopal Church. Dinner, to be served at 6:30 p.m., will be followed by the speakers' hour.

The visiting church dignitaries, with the Rev. Galen Onstad, pastor of St. Paul's, have just returned from attendance at the general convention of Episcopal churches in Hawaii.

Bishop Harris, to be the principal speaker, will talk on his work in Liberia. Bishop Barton and the Rev. Onstad will speak on the accomplishments of the convention.

The bishop was educated at St. Augustine's College in Raleigh, North Carolina, and at the Bishop Payne Divinity School. He served overseas as a first lieutenant in World War I and afterward for 10 years was rector of Grace Church, Norfolk, Virginia. He acted as archdeacon of the extensive Negro work in the diocese of Southern Virginia and for a time was secretary for Negro work in the national council prior to his election to the episcopate.

Dunsmuir Optometrist Returns from School

DUNSMUIR — Dr. H. A. Meredith, Dunsmuir optometrist, has returned to Dunsmuir recently after completing an intensive course on children's visual care at Luverne, Minnesota.

The study was conducted at a post-graduate clinic and dealt primarily with techniques of evaluating visual performance of the preschool child.

Ford Motor Company Shows New Big Truck Line For '56

Ford's 200 new 1956 truck models with greater engine performance and payload capacity go on display in 6,800 Ford dealer showrooms throughout the country September 23. They are being shown in Klamath Falls at Balsiger Motor Co. Main and Esplanade.

Two new models have been added to the Ford truck line — a T-750 tandem axle model in the heavy truck series, and a new, longer wheelbase pickup.

Gross vehicle weights extend from 5,000 pounds on the pickup to 42,000 pounds on the heavy duty tandem axle models.

For 1956, Ford's cab design introduces increased visibility of wraparound windshields and optional wraparound rear windows.

Introduced for the first time to the trucking industry are two standard safety features — a safety steering wheel and a safety door latch.

The safety steering wheel is designed with a rim three inches above the horn button to give the driver's chest added protection from the steering column in case of a crash.

Also, a new safety door latch reduces the chance that doors will open in an accident, providing occupant added protection from being thrown out of the cab.

Tubeless tires, standard equipment this year, increase Ford truck economy. Larger payloads can be carried because tubeless tires and wheels weigh less, which is important to a trucker with as many as 10 tires on his truck. They reduce tire-change time up to 70 per cent.

Ford's short stroke, low friction engine design has been continued this year in eight engine combinations developed for more power, fuel savings and durability.

Horsepower has been increased in all engines, by 12.7 per cent in the smallest 223 cu. in. six cylinder engine rated at 133 hp to 17.5 per cent in the largest 332 cu. in. heavy duty Y-8 engine rated at 200 hp when equipped with a four barrel carburetor.

In the medium-heavy truck series, a special heavy-duty 168 hp

Lipstick Survives Waterproof Test

TWIN FALLS, Idaho — A year ago Mrs. Donald H. Bopp went swimming in the Magic Reservoir. While diving out of a boat, she tipped the craft over. Her purse, money and lipstick fell into 40 feet of water.

Last week she revisited Magic Reservoir. The water level was low because there has been little rain this summer. It was so low, in fact, she spied the missing items half-buried in the mud.

She said the purse was rotted, the paper money in shreds (she

didn't say how much), the silver money blackened—but the lipstick was as good as new.
