State Refuses Well Permits

FORT ROCK — No permits for drilling irrigation wells in the Fort Rock basin are being granted at the present time, according to word received here from the office of the state engineer. State law requires permits for appropriating underground water by means of pumping from wells. The procedure is similar to that required for filling for water from surface streams.

Portland DAR To Give Tea

Multnomah Chapter, Daughters of the American Revolution, in Portland, Oregon, is giving a tea for the opening of the Lincoln House of "The Colony," 1400 S.W. 20th Avenue on Sunday, October 2, from 3-7 p.m.

This benefit tea is to assist in the restoration of the Robert Newell House at Champege. The Lincoln House was built by the state of Illinois for the World's Fair which was held in Portland in 1905. Tickets for the tea are one dollar and Daughters of the American Revolution, their husbands and friends are cordially invited to attend.

Bayes Witness Remains Mum

SAN FRANCISCO (UP)—John W. Powell, former editor of the pro-Communist China Weekly Review in Shanghai, took the stand for the second day yesterday at the court martial of Cpl. Thomas Bayes.

And for the second day he ducked under the Fifth Amendment to avoid questions relating to his background, despite a warning of possible contempt of court proceedings.

Bayes, 32, Flat Lick, Ky., is charged with collaborating with the enemy while a prisoner of the Chinese Reds. Some witnesses have testified that articles written by Bayes appeared in Powell's magazine.

Powell, who left China in 1953, was called as an involuntary prosecution witness. He refused to answer questions concerning the publication on the basis "a person cannot be forced to be a witness against himself."

however, when asked if he had ever seen Bayes, the former editor replied: "I don't think so."

Powell answered one question.

Mrs. Richard L. Fitzpatrick said—
"Anybody would like a finer milk...especially if it costs less"

Then Mrs. Fitzpatrick heard about Lucerne, the Bonus Quality Milk. It's milk that meets highest standards for purity, flavor, and cream-content. This milk costs the Lucerne people extra money—because they pay dairy farmers a bonus for milk that meets Lucerne's extra-high quality standards. Lucerne saves money, however, by not delivering milk to homes. So Lucerne can sell Bonus Quality Milk to you for the same price as any other milk—and for less than other milks cost when you have them delivered.

That's why Mrs. Fitzpatrick and so many other mothers here have changed to...
