SCRAPE OFF DIRT

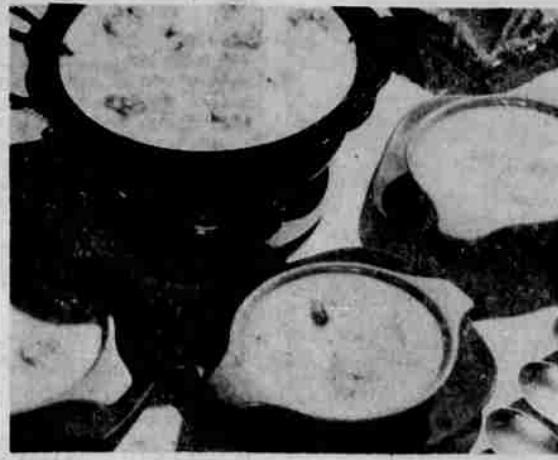

You can tell a good gardener by the way he keeps his tools. When the gardening is done, it pays to scrape the dirt from the metal parts of all tools. Then wash them in hot soap or detergent suds, rinse and dry carefully before putting away for the winter. A light coating of lubricating oil will prevent rusting during the winter months.

WASHING CORDUROY

To prevent a deposit of lint on the surface of corduroy garments, turn garment inside out before washing by hand or in the machine.

OXTAIL SOUP

Wash and dry 2½ pounds ox-tails; dredge with flour and brown in a little hot fat in a deep, heavy utensil. Add 1 teaspoon salt, ½ teaspoon pepper, 1 bay leaf, parsley and 2 quarts water. Boil 10 minutes; skim. Cover and simmer over low heat about 3 hours or until meat is very tender. Remove joints; pick meat from bones and return meat to soup stock. Add 1-3 cup each diced celery, carrots and onion. Simmer 30 minutes. Add 1 teaspoon Worcestershire sauce and correct seasonings. It's even better warmed up for a second meal.

SEAFOOD CHOWDER is an eating treat as well as being a substantial food for your hungry family. Serve with relishes or a salad and Melba toast or triangles of cheese toast for a hearty lunch or light supper. Make cheese toast by buttering triangles of toast, sprinkling with grated American Cheese and paprika and broiling until the cheese melts. Photo and recipe courtesy National Dairy Council.

Chowders are excellent combinations for taste and food value, particularly since they are made with milk. It is the wise homemaker who includes milk in cooked foods as well as serving it to her family by the glassful. No food is more versatile than milk. Milk combines with most foods to blend flavors and serves as the basis for innumerable tasty sauces and soups.

SEAFOOD CHOWDER

4 tablespoons butter
4 tablespoons minced onion
Liquid from two 7½-oz. cans of shrimp, crabmeat or lobster

2 cups finely diced potatoes
½ cup boiling water
2 cups milk
1 teaspoon salt (taste for amount of salt because the liquid from canned fish is usually very salty)
½ teaspoon pepper

Melt butter in heavy kettle; add onions and cook over low heat until yellow. Add liquid from seafood, potatoes and boiling water. Cook until potatoes are tender—about 10 minutes. Just before serving add seafood and remaining ingredients. Heat to boiling and serve at once.

WASHTUB MUSIC

The hit of a folk music fete in New York's famous Washington Square was a washtub bass fiddle. Since it was made from an inverted washtub, a window washing pole, a bass fiddle D string, and a coffee pot handle, you can literally say that the young male inventor spends his leisure time over a washtub.

With vocalists using soap bubbles for improving breath control, and musical instruments made from laundry supplies, it's getting so that a homemaker will have to take out insurance on her cleanliness supplies.

MEAT FOR LONGEVITY

Meat consumption and longevity go hand in hand. In countries where per capita meat consumption is high, the life span is considerably longer. In Australia, where per capita meat consumption is 219 pounds annually, the life span is 65 years. In the United States, per capita meat consumption is 14 pounds, life span also 65 years; China, 22.5 pounds, 39 years; India, 5.1 pounds, 27 years.

APPLE WEEK

Everything has its own week, weeks or month these days, National Apple Week will be observed from October 20 to 29 this year. Especially inviting these autumn days are colorful salads made with fragrant apples which combine so well with shredded fall cabbage or practically any vegetable or fruit salad. Try adding chopped raw apple (leave the skin on the apple after washing it) to your favorite recipe for chicken or tuna fish salad.
