

CHIEF SIDEWALK SUPERINTENDENT Ronnie Friesen has some sharp questions for his grandfather, Jack Friesen, 1717 Main Street, who purchased the old livestock sales arena for salvage at the county fairgrounds. Friesen is scheduled to have the building off the grounds by the end of this week.

Israel Makes New Armament Appeal To United States

WASHINGTON (UP)—Israel has formally told the United States it needs new arms aid to counter-balance weapons Egypt will get from the Soviet bloc, it was learned today.

The notification came within the past week.

Israel did not request specific military equipment. But the action indicated the Israeli government will follow up its formal notification with a request for new military aid.

Diplomatic sources said Israel is convinced that only the United States would be in a position to

supply it with enough arms aid to restore the balance of Middle Eastern power after a Czech offer of arms to Egypt is carried through.

Furthermore, Israel feels it would need so much military help that the United States would have to supply such arms free or sell them on very liberal terms. In the past the United States has sold limited quantities of weapons for security purposes to Middle Eastern nations only on a strictly reimbursable basis.

Apparently Israel is waiting to learn details of the Czech-Egyptian arrangement before submitting a detailed request for weapons.

Secretary of State John Foster Dulles declined to tell a news conference Tuesday whether the United States would be willing to supply

Israel with arms to balance Soviet bloc shipments to Arab nations. Officials said any decision most likely will depend on what kind of report Dulles gets from Assistant Secretary of State George V. Allen returns from his troubleshooting mission to Egypt next week.

Allen rushed to Cairo last week for talks with Egyptian Premier Gamal Abdel Nasser almost immediately after Egypt announced she would get arms from Czechoslovakia in exchange for cotton and rice.

Some diplomatic officials said they expect Nasser to carry through the Czech arms deal but not to buy any more weapons from the Soviet world. They said Nasser would avoid further deals because

he does not want to go too far in antagonizing the West.

Meantime there were reports that Russia already is negotiating with Syria on another arms deal. Dulles is determined to do everything possible to avoid an arms race in the Middle East which could explode into a new war. He is expected to put new pressure on Soviet Premier V. M. Molotov, possibly at the Oct. 27 Big Four foreign ministers meeting in Geneva.

Happy Is The Day When Backache Goes Away

Nagging backache, headache, or muscular aches and pains may come on with over-activity, emotional upset or day to day stress and strain. And folks who rest and drink unwisely sometimes suffer mild bladder irritation . . . with that restless, uncomfortable feeling. If you are miserable and worn out because of these ailments, Don's Pills often help by their pain relieving action, by their soothing effect to ease bladder irritation, and by their mild diuretic action through the kidneys — tending to increase the output of the 15 miles of kidney tubes.

So if nagging backache makes you feel dragged-out, miserable, with restlessness, sleepless nights, try Don's Pills. You'll get the same happy relief millions have enjoyed for over 60 years. Ask for new, large, economy size and save money. Get Don's Pills today!

Greece Forms New Cabinet

ATHENS, Greece (AP)—Constantine Karamanlis, popular and dapper Cabinet colleague of the late Premier Marshal Alexander Papagos, moved quickly today to form a new Greek government.

King Paul picked Karamanlis to take over the government reins.

The nation, meanwhile, mourned the passing of Papagos, who died Tuesday night after a prolonged gastric ailment contracted in a Nazi concentration camp. Sorrowing Greeks filed through Athens Cathedral to pay their last respects. Weeping women knelt to kiss the bier.

Karamanlis, 46, tall and handsome, is considered one of the best dressed men in Greek politics. Under Papagos he was communications and public works minister. He became one of the most popular men in the country because of a sweeping road-building program.

His selection last night was a surprise, since one of Papagos' last acts was to name Stephan Stephanopoulos, foreign minister and deputy premier, as acting premier.

The son of a poor tobacco farmer, Karamanlis studied law at Athens University. He has served in Parliament since 1932, except for the period of John Metaxas' dictatorship and wartime occupation.

Mississippi Area Gets Heavy Rain

By THE ASSOCIATED PRESS
Skies were clear over most of the western half of the country today but rain, moderate to heavy, fell in wide areas in the eastern half.

Heaviest falls were in the middle Mississippi Valley, the Great Lakes region and the Ohio Valley. The rain belt spread into the eastern Great Lakes and most of the Middle Atlantic states. Amounts measured up to 4 inches in some Midwest areas.

Scattered showers were reported in the western Carolinas and Georgia and in parts of Montana, Wyoming and Kansas. Earlier showers hit sections of the Northern Plains and in the lower Mississippi Valley.

Fairly mild weather prevailed in the eastern half of the nation, with temperature rises of 5 degrees.

Irish Rioters Get Sentences

READING, England (AP)—Three members of the outlawed terrorist Irish Republican Army were under life sentences today for their part in an unsuccessful raid on a British army barracks in August.

The trio and at least seven others, posing as British soldiers, stole large quantities of arms and ammunition from an army depot at Arborfield, England, Aug. 13. Scotland Yard operatives recovered the loot from a London hide-out. The rest of the raiders were not captured.

During the two-day trial the three sat glum and silent. After sentence was pronounced last night, Joseph Doyle, at 30 the eldest of the trio, spoke up:

"We are soldiers of the IRA. Those arms and ammunition were to be used against the British army of occupation in Ireland. We have no regrets—our only regret is that it (the raid) was not a success."

Doyle comes from County Wick. Sentenced with him were Donald Murphy, 23, of Dublin, and James Andrew Mary Murphy, 20, of London.

The largely Catholic Republic of Ireland wants to incorporate the six Protestant counties which form Northern Ireland and now are united politically to Britain. The IRA—banned in the Irish republic as well as in Britain—has repeatedly urged a terrorist campaign to unite all of Ireland.

Irish Rioters Get Sentences

BERLIN (AP)—City officials disclosed Thursday that East German Communist authorities have lifted a "coal blockade" on the tiny village of Steinstuecken. Steinstuecken is a Western enclave which lies about 500 yards inside Communist territory. Three weeks ago Communist border guards refused to allow West Berlin coal trucks to enter the village. There was no explanation for the sudden lifting of the restriction.

Blockade Lifted

Big Four Meeting To Test 'Government-As-Usual'

WASHINGTON (UP)—The first rough test of government-as-usual during President Eisenhower's illness is just around the corner.

It will come with the Big Four foreign ministers' meeting in Geneva, which begins three weeks from today. That will be a time for executive decisions. The foreign ministers meeting was set up last July in the atmosphere of sweetness and light which prevailed at the Summit Conference among the chief executives of the Big Four.

The chiefs agreed beforehand that they would not seek to make decisions at the Summit meeting. They merely would establish personal contacts, exchange views, agree which were the most dangerous threats to peace in the West—and send their foreign ministers to Geneva in October to negotiate better times.

Shortly after Mr. Eisenhower met with the British, Soviet and French chief executives the United States position on the forthcoming foreign ministers' conference seemed to be fixed and definite. It was that it would be up to the Soviet Union at this conference to make a realistic contribution to world peace.

That was and presumably still is the position of the United States government. Secretary of State John Foster Dulles made it just about that this week when he said the test of the Summit Conference would be whether the spirit generated there would obtain solution of some of the urgent problems of peace, such as the existence of a divided Germany.

"I believe," he said, "that we will make positive progress toward the reunification of Germany."

The West Germans do not agree

GOP Leaders Make Guesses

WASHINGTON (UP)—Some influential Republicans predicted today that President Eisenhower will avoid publicly endorsing any GOP candidate if he decides against running for reelection.

But even so, they said, Mr. Eisenhower, by his private actions and attitudes, will have a commanding voice in the selection of his successor and will urge that the GOP nomination go to someone strongly committed to the Eisenhower program.

These Republican strategists also predicted that President Eisenhower will make a decision quickly on whether he will or will not seek a second term. They said an announcement might come as early as December and should not be later than January.

These GOP informants were by no means sure, however, that President Eisenhower will take himself out of the running. Some thought the President will decide to run, despite his illness, if he concludes that is the only way to preserve the administration's program and — especially — to preserve world peace.

Board Reports 147 Complaints

WASHINGTON (AP)—President Eisenhower's Committee on Government Contracts reported today that it received 147 complaints in the past two years of hiring or promotion discrimination because of race, color or creed.

The committee, headed by Vice President Nixon, said it had disposed of 71 complaints and is still working on the others.

It said many more complaints would have been filed but for a general "reluctance" of people to do so.

The committee seeks to enforce the antidiscrimination clauses which are contained in most federal government contracts with private firms. The complaints were filed by various organizations and individuals against firms in the utility, aircraft, auto parts, oil refining, chemical, construction and machine tool industries.

Of the 71 cases closed, the committee said, "corrective action" was taken in 21, no violation was found in 21, lack of jurisdiction resulted in dismissing 14 and the remaining 13 were dismissed because of inadequate information.

The committee said there has been "improvement in compliance" in number of the 70 cases still pending. It said that cases are not closed until the committee is satisfied with a contractor's general compliance as well as with results achieved in connection with the specific complaint.
