

**PERT AND PRETTY PATTI WILSON**, teen-age Hollywood model, who has just been named "Pop Corn Queen" by a board of photographers, demonstrates the typical, teen-ager at home, with a bowl of pop corn, school books and other reading material.

**Pop Corn**

A recent survey conducted among teen-agers reveals that pop corn is now one of the leading favorites at their parties and "jive jamborees."

"Pop corn and soft drinks are the principle snacks served at more than 72 per cent of all teen-age parties," the survey revealed. And mom and pop like the idea, too, because pop corn serves so many for so little. One 10 ounce can of the most popular brand pops as much as twelve quarts of popped corn. That's less than two cents for a whole quart of pop corn—and two cans generally serve a whole crowd.

"Pop corn is fun at a party," many teen-agers reported in the interview, "because you can pop it right at the party—and everybody gets fun out of it."

The informality of "guest-participation" adds a lot to any party, and this is perhaps the only food that could be served and prepared by the guests themselves.

No special poppers are really needed. A heavy pan or skillet is all that is required. Place about three tablespoons of cooking oil in the bottom of the pan or popper and heat until a kernel of pop corn dropped in the hot oil pops. Pour in one-third cup of pop corn and reduce heat to medium. Put lid on pan, shake or stir until all of the pop corn is popped. Empty into large pan or bowl. Salt to taste.

It takes only a few minutes to pop several heaping bowls by using this method. If you are sure to buy pop corn that is fresh, and guaranteed to pop. Experienced pop corn fans make it a rule to buy pop corn that comes sealed air-tight in metal cans because it is always popping fresh.

like Jolly Time, the nation's favorite.

For a different taste treat, the popped corn can be sprinkled with grated cheese, and mixed thoroughly in the bowl, right after popping.

Many teen-agers enjoy a bowl of pop corn while doing home work, or while enjoying their record players. And... not only teen-agers... but a few bowls of pop corn are fun for the whole family and make a pleasant evening at home anytime.

**TEA DRINKING**

Next to water, tea is the world's favorite drink. And, next to water, it is the least expensive. Last year Americans bought more than 100 million pounds of tea, each pound yielding about 200 cups and this year's trends indicate a further increase in tea consumption.

An industrious fact finder recently reported that every second of every hour in every day Americans drink almost 600 cups of tea. In most homes plain tea or with sugar and milk or cream are the favorites, with lemon next in preference.

**GLAZED APPLE COOKIES** made with fresh, juicy autumn apples are mighty good eating for lunchboxes, after-school treats, family desserts or for that evening snack with a glass of cold milk. Sperry Home Staff members voted this recipe "Excellent." Martha Meade, who perfected the recipe says: "Success is certain with Drifted Snow Flour because it is home-perfected for all types of home baking."

**Apple Cookies**

All measurements are level. Sift flour before measuring. Measure into a mixing bowl. Measure 1/2 cup soft shortening, 1 1/2 cups brown sugar (firmly packed, free from lumps), 1 teaspoon salt, 1 teaspoon cinnamon, 1/2 teaspoon nutmeg, 1/2 teaspoon cloves, 1 large egg, unbeaten. Beat until mixture is blended and fluffy. Then add — 2 cups sifted Sperry Drifted Snow "Home-Perfected" enriched flour, 1 teaspoon baking soda, 1/2 cup milk, 2 cups finely chopped raw apple, 1 cup nuts chopped. Stir vigorously until all ingredients are well mixed to a moderately thick dough. Using a tablespoon spoon dough in mounds, about an inch apart, onto lightly greased baking sheets. Bake for 10-12 minutes in a preheated hot oven, 400 degrees. Remove from baking sheets to wire cake racks and while still warm spread tops with Vanilla Glaze. Cool thoroughly before storing. When storing

cookies place waxed paper between layers. Makes 3-3 1/2 dozen cookies. Variation: 1 cup raisins may be added, if desired.  
**VANILLA GLAZE**  
Stir together until smooth — 1 cup sifted powdered sugar, 1/2 teaspoon vanilla

Now it's here faster... foolproof
