

DON'T JUST WISH your complexion were alabaster white again. For that problem of faded, muddy tan, and coarse, dry skin Elizabeth Arden has developed a wonderful treatment to bring back the cool dewy look of the winter-fair complexion. Called After-Summer Bleach Treatment, it restores a fair, smooth look to your skin.

COMING SOON

Advance samples have been received by local drug stores of Medicated "Silicare" from the Revlon Pharmaceutical Division. Revlon's publicity says: "Silicare's" protection outmoded cosmetic creams and lotions... Soothing, cooling "Silicare" is a unique blend of medically recognized active ingredients combined with dimethyl polysiloxane, chemistry's silicone discovery that protects your skin from many outside irritations. "Silicare" temporarily coats your skin with a smooth, invisible film which repels water... repels harsh soap and cleansing solutions

...even repels dirt and grime. This amazing protective action lasts through as many as five ordinary hand washings. Homemakers are urged to apply "Silicare" freely directly before preparing onions, garlic or other foods which might leave odors on the skin. Offensive food odors just won't cling, seem to rinse away when hands are protected with "Silicare."

FIRE HAZARD
Only cleaning rags and mops are a recognized fire hazard because of the danger of spontaneous combustion. That's the best reason why they should be washed clean in hot soap or detergent suds promptly after use.

ORIENTAL influence is passed along in eminently wearable coiffures to American women by Michel of Helena Rubinstein, who includes new styles for short hair (still preferred by many smart women) as well as for the slightly longer locks favored by fashion. At left, Temple Bell coiffure, reflects the dignity of the Far East in a deceptively simple new design. It is made especially for the medium length hair, youthful faces. In two distinct parts, it combines a lifted front with softly turned-

under sides and back. Center is Pagoda, with the sleek, trim lines which are all-important this season. Cropped close, it is distinguished by a forward circular movement starting from the crown, ending in a soft fringe of bangs. Right is Fan, created especially for short hair. All movement is from the nape to the forehead in a continuous sweeping motion. A forehead fringe adds to the mobile effect of the new coiffure.

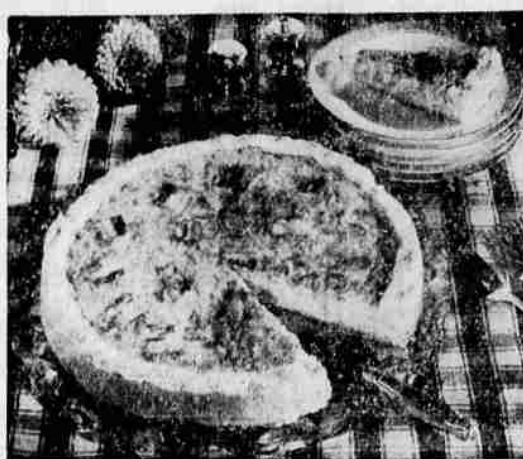

Junior Styles

Children's fashions for fall and winter are miniatures of styles in the adult fashion world.

The college girl is wearing cotton knit pullovers—and so is the kindergarten miss. The little school girl can copy her big sister and don knee length cable knit cotton socks to finish off her "grown up" look. The jumper is another style that rates high on the fashion popularity poll for style-conscious ladies, be they tots, teens, or otherwise.

Cotton corduroy is a favorite fabric of every age group and of both sexes. The small fry love printed corduroy in sophisticated "black watch" plaids like their elders wear. One manufacturer of children's wear has styled matching suits for brother and sister in the rich tartan plaid corduroy.

Wrinkle-resistant cottons in both gay and muted plaids are popular with the grammar girl, as well as the glamor girl. Mothers especially like the colorful autumn colors because they shed wrinkles easily and do not need much ironing between pressing.

FOREMOST Onion Pie is a hearty, flavorful dish for crisp autumn days. Made with fresh-tasting Foremost Evaporated Milk, it is easily prepared and nutritious. Foremost is on local market shelves at the new low price.

WASHING DRAPERIES
Be sure to remove metal hanging or pleating pins before sudsing washable draperies. This is a double safety measure—it prevents pricked fingers and eliminates a source of rust stains.
