At last—the fabulous redhead himself tells the whole Godfrey story!

"I am sick and tired of the fantastic tales that have been concocted for gullible newspapermen by the press agents of my former associates. I think it is about time that folks heard the true story."

Millions of words, friendly and otherwise, have been written about Godfrey. But this is the first time Arthur HIMSELF has told his story. The fabulous redhead tells it all in the style that has become his trademark. He pulls no punches. He tells of his troubles as well as his triumphs. The whole fascinating Godfrey story starts today in the Saturday Evening Post. It's on the newsstands right now. So be sure to get your copy before they're sold out.

Ike To Sit On Sidelines In '56, GOP Leaders Say

DENVER (AP)—President Eisenhower, well enough now to discard virtually all medicine, left it abundantly clear today he is in no hurry to say whether he will run again.

And Postmaster General Arthur Summerfield is the latest to indicate that most of Eisenhower's top strategists of 1952 are against putting any pressure on him for an early decision.

Summerfield came out of a 30-minute conference at Fitzsimons Army Hospital yesterday saying there had been no discussion of the 63-year-old Eisenhower's political plans for 1956.

More important, perhaps, he said the President didn't mention politics to him, Summerfield is a former GOP national chairman who managed Eisenhower's successful 1952 campaign.

Cabinet member No. 11, Secretary of Labor Mitchell, is coming out to see the President tomorrow. A social visitor Saturday will be Eisenhower's old friend and World War II comrade, British Field Marshal Montgomery.

Eisenhower's personal friends say he will serve out his present term in the presidency but will decline a second nomination. If that is his decision, the longer he withholds it the better it may be for GOP fund-raising drives. These same friends say Eisenhower will play an important role in the choice of his successor as Republican standard bearer.

Whatever his role in 1956, the President will make the issues in the State of the Union and subsequent messages he will present to Congress in January.

Among these will be a commitment of his party to the flexible price supports for farm products that have drawn fire from Democratic advocates of fixed high price supports.

The President approved suggestions yesterday from Summerfield for a renewal of demands for higher postal rates to offset a yearly Post Office deficit of about a half-billion dollars. Summerfield said the President may ask an increase in first class mail rates from three to four cents an ounce and a boost in the air mail rate from six to seven cents.

Meantime, the President's improvement in his heart attack has brought new discussion of a date for his return east. The talk now is he will fly to Washington in about 10 days, spend several days at the White House, and then go on to his Gettysburg, Pa., farm for a long period of recreation and rehabilitation.
