

FACE-LIFTING has been accomplished inside and outside the Great Northern railway station at Malin which was built in 1932, a few months after rails had been laid to serve the area. Station Agent Howard E. Henderson states this station does a \$1 million annual business. Relief agent on Mondays is Mrs. Henderson, who is regular station agent at Merrill, where renovating is also taking place. One advantageous feature at Malin is the installation of the high speed train order stand which can pick up orders from trains traveling at 60 miles per hour or faster.

Legion Group Seeks Toys

DUNSMUIR — The "extra toy" campaign of Epps Unit, American Legion Auxiliary will conclude on December 1, then the refurbished and renovated toys will be assembled in the legion club rooms and made available to parents of large families in Dunsmuir. No charge is made for the toys.

Members of the post and auxiliary are doing a large part of the toy repairing and doll dressing themselves this year as the high school students who have done it in the past have been engaged in making civic Christmas decorations this year. Mrs. Alice White and Mrs. Martha Johnson, community service chairmen of the unit, are seeking discarded and grown toys and asking that they be in useable condition if possible, when donated.

Cub Scouts in Den 2, Pack 91, have volunteered their help and are spending their meetings this month repairing and repainting toys.
