Take it from me girls... stay Smart and Healthy

By Bessy, the Basin Bossy

Well, ma'am. You should be pushing for those Christmas gifts from the girls around about you. And you should be well on the way toward making up a pretty strong list of your own gift-giving, too.

The stress has been placed on Christmas - present buying and giving so much in the past few years, it's almost too much. It seems as though there was a day when store windows began really putting on "Christmas Aids" just a couple of weeks prior to Christmas.

Then, somehow, the time gradually moved back until it began to conflict with Thanksgiving. Now, to get around that conflict, they have begun the Christmas Season BEFORE Thanksgiving.

The net result is increased pressure on the pocketbook and on the decision-facilities each of us is supposed to have. Not only is it tough to decide what to give other folks, it has become quite a feat merely to decide what you would like to have yourself.

Several families we know get around at least a part of this. Instead of purchasing clothes and wraps and such - which offers a complex volley of styles, sizes, shapes, colors and what have you - they offer each other the opportunity to go out and select what they want for themselves.

Of course, gift certificates aren't new, but they are effective. With a gift certificate, a woman is free to select her own desired color, size, style, etc. And in the modern vein of thought, they are, indeed, wonderful gifts.

So try the "gift certificate" pitch in your letters to your Santa Claus if there's something special you have in mind for your wardrobe. Or even if you have nothing special in mind, it will offer you an opportunity to get out and work over the style lines to see what suits you best.

Bessy.
