Make Fruit Cake In A Casserole

Here's a gift idea that should make you popular with your friends. Bake them a fruit cake in a pretty casserole. Present it with holly or a sprig of mistletoe. Wrapped with transparent paper tied with a bright red bow, it makes a very pretty package.

And though short work will be made of the cake, your thoughtfulness will long be remembered. Everyone loves good home made fruit cake. So we're giving you the recipe here. It's a Crisco Kitchens recipe developed especially for this gracious type of giving. Also, it's a short recipe eliminating many of the steps usually expected in the preparation of home made fruit cake without loss of any of the old fashioned good taste. Candied fruits for cake baking can be found at most grocers, already cut into small pieces and ready to add to cake batter. Check your recipe so you'll know the size jar to buy. They come in various sizes, some with assorted fruits. One other reminder. Make your fruit cakes now. They're always better after time has allowed the flavor of the fruit to blend. And, of course, choose an oven proof casserole, the prettiest one you can find.

CASSEROLE FRUIT CAKE
1 cup dried apricots
1 cup light or dark raisins
1-3 cup silvered candied cherries
1-3 cup diced candied orange peel
1-3 cup diced citron
1-3 silvered blanched almonds
1 teaspoon grated lemon rind

Cover apricots with cold water; bring to boil; boil 1 minute; drain. Slice apricots coarsely. Add rest of fruit, almonds, and rind.

THE BATTER
2 cups sifted enriched flour
1/2 teaspoon baking soda
1 teaspoon salt
4 eggs, separated
2 cup Crisco
1 cup sugar

Start heating oven to 275 degrees F. Grease 2-quart casserole. Combine flour, salt and soda. Beat egg whites until stiff. Beat Crisco, sugar and egg yolks until light and fluffy. Stir in fruit mixture, blending well. Add flour mixture alternately with beaten egg whites. Turn into casserole. Bake 2 hours or longer, depending on thickness of loaf. Cool in casserole.

SPECIAL BROOMS
Even brooms are specialized these days. One of the latest has a plastic brush adjustable to three positions—for sweeping the floor, pushing walls and ceiling. It is said to attract and hold dust, thus eliminating dust clouds. The elastic bristles are very easy to wash by simply switching them in lukewarm soap or detergent suds, then rinsing and hanging to dry.
