

By FRANK JENKINS
Today's best political crack.
President Eisenhower is quoted
this morning as telling Republican
congressional leaders the other
day that New York's Governor Aver-
ell Harriman is a "Park Avenue
Truman." (Park Avenue is New
York City's ritziest street.)
As a political phrase maker, Ike
is pretty good, isn't he?

It should be added by way of
explanation, I think, that Ike didn't
just cut loose without provocation.
Harriman has been making aside
remarks to the effect that the Eise-
nhower administration has en-
dowed the rich and taken the bread
out of the mouths of the poor —
and similar left-wing tripe.
John Knight, of the Knight News-
papers, one of America's ablest edi-
torial writers, sized Harriman up
the other day as "a rich man
who has a cult complex be-
cause of his inherited wealth."

Bouncing from U.S. politics to
world politics (the cold war is a
communist world politics cam-
paign), Soviet Premier Nikita Khrush-
chev has just departed from In-
dia after exchanging pledges of
wide and friendly cooperation with
India's silk-stocking Premier Nehru
— who purrs like a pet kitten on
a paw every time the big com-
munist boss strokes his fur.
When India is taken over by the
communists and Nehru is clapped
into jail, most of us aren't going
to feel as bad about it when he
jumps out of a window as we did
when Masaryk of Czechoslovakia
leaped to his death after the com-
munist had taken over his country.

That brings up the big question:
Is our military strength sufficient
to deter the communies from START-
ING A WAR?

On that point, let's quote two
able and statesmanlike Democrats:

Senator Russell, of Georgia, of
the senate armed services com-
mittee:

"I think the U.S. defense pro-
gram looks pretty good."
Senator Byrd, of Virginia, also
of the senate armed services com-
mittee:

"Strategic bomber bases ringing
Soviet Russia are the best deter-
rent to war the U.S. has. It is un-
likely the Russians will launch a
3000-mile flight against us as long
as they know our planes (from
these bases) can bomb Russian
cities within a few hours."

Let's close with a word on cotton:
At a referendum election held
yesterday, 93 per cent of the cot-
ton growers who went to the polls
in 21 states voted to go on with
the subsidy system that has stifled
the nation's warehouses with cot-
ton for which there is no market.
That has kept the price of Ameri-
can cotton so high the American
can no longer sell any considerable
amount of it for export, that has
brought into the market synthetic
fibers that are rapidly taking
the place of cotton in our own
domestic market.

The cotton subsidy has to be
accompanied by acreage controls.
As acres are taken out of cotton,
they go into other crops that are
competitive with cotton. For ex-
ample, if a farmer takes out of cot-
ton and grows corn, the price of
corn goes up. As the price of corn
goes up, the price of feed goes up.
Then fertilizer is poured onto the
remaining acres so that they will
produce as much cotton as the
larger number of acres produced
before.

Worse still.
The Southwest — West Texas,
New Mexico, Arizona, Southern
California — is exhausting its
ground water supplies by pump-
ing TO GROW COTTON TO BE
PILED UP IN GOVERNMENT
WAREHOUSES WHILE THE
REST OF THE WORLD GROWS
COTTON FOR USE.

Too bad, isn't it?
But that's what happens under
POLITICAL FARMING.

Fighter Lands On Bomber

SPOKANE — A jet fighter
plane, its hydraulic system failing,
made a quick "emergency land-
ing" at 25,000 feet on a B36 bom-
ber this week and was carried
safely to the ground, the Air Force
revealed Tuesday.

Capt. P. Robinson of Larson
Air Force Base said the hydraulic
system on his B-47 Thunder-
bolt jet failed completely just
seconds after he hooked onto the
trapeze boom under the bomber.
The failure left the jet without
flap landing gear, brakes and
other equipment and the B-47 had
to bring the plane back to Fair-
child Air Force Base here, Fair-
child doesn't have equipment to
get one of the jets out of the
"mother ship" on the ground and
it's still in there.

The incident happened Monday
night, the Air Force said, while
Capt. Robinson was practicing
"hookups" in flight near Spokane
with the special equipment under
the B36.

Robinson got a warning signal
inside the cockpit that the hydrau-
lic system was failing and he
radioed the "mother ship" that he
had to come aboard quickly.
The Air Force said Robinson
would have had to bail out of the
\$500,000 jet if he hadn't been able
to "land" in the air immediately.
Jet fighter planes from Larson
have been practicing the mid-air
hookups with Fairchild bombers
since Dec. 7.
