"DENNIS THE MENACE"

"MON! HE'S BURNING UP THAT TIE GRANDMA GAVE HIM FOR CHRISTMAS!"

Five Resume Raft Trip

RAIBO, C. Z. (La Cantuta), the 36-by-13-foot raft on which four men and a woman are trying to drift to Polynesia, was reported on its way again today after a Christmas rest in the Galapagos Islands.

The raft was driven off course last week by adverse winds and currents.

A main radio operator in Guayaquil, Ecuador, reported the steamer Tropic Trader towed the raft away from the Galapagos Island port of Villamil on Christmas Day and released it in a favorable westbound current.

The adventurers said they now expect to reach Polynesia in about 25 days. Their craft was fully provisioned at Villamil.

Natalia Mazuelo, only woman aboard who was suffering from seasickness when the raft reached the Galapagos, was reported fully recovered. The party set out Dec. 4 from the Peruvian coast to duplicate the feat of Thor Heyerdahl and his Kon-tiki expedition.

Approval Seen For New Soviet Budget

MOSCOW (AP)—Quick approval by the Soviet Parliament was anticipated today for the Kremlin's 1956 budget promising a cut in defense spending.

Approval of the budget is one of the two main items of business for the special session of the Supreme Soviet (Parliament) which opened here yesterday. The other is a report by Premier Bulganin and Communist Party Secretary Nikita S. Khrushchev on their tour of South Asia.

With Bulganin, Khrushchev and other Soviet leaders looking on, Finance Minister Arseny Zverev presented the outline of the 1956 financial statement to the 1,403 delegates early in their opening meeting. Zverev's speech lacked the criticism aimed in previous years at "capitalist and imperialist warmongers."

The budget, slightly higher than that outlined in February for 1955, estimated expenditures at 566,000,000,000 rubles and revenues at 581,000,000,000. The 1955 budget put expenditures at 563,482,000,000 rubles and revenues at 590,192,000,000.

The finance minister added, however, that a comparison of the figures for the two years was misleading because wholesale prices had been cut considerably during 1955.

Zverev said defense appropriations for the coming year would be 102 1/2 billion rubles, just over 18 per cent of the total expenditure and nearly 10 per cent below the 1955 estimate of 112,122,000,000 rubles.

(The Russians value the ruble arbitrarily at 25 cents, but its purchasing power is substantially less. However, the actual Soviet defense appropriation cannot be estimated accurately since many items which would be included under that category in other countries are hidden under other headings.)

The U.S. government is spending for defense at the rate of about 34 1/2 billion dollars annually, or about 35 per cent of its total expenditures.

Zverev declared the saving in the military budget would be used to help advance the national economy, education and culture. He recalled the cut of 640,000 in Russia's armed forces, announced earlier this year, and Russia's decision to return to Finland the Porkkala naval base. All these moves, he said, showed Russia's concern for reducing world tension.

Appropriations for heavy industry were cut from 190 billion

FUNERAL services for Paul Nordstrom, who died December 23 following a year's illness, were held at 3 p.m. today from O'Hair's Memorial Chapel, Klamath Falls Lodge, No. 77 A.F.&A.M. officiated. Final rites and interment were in Klamath Memorial Park.

Airman Spends Day On Ledge

TUCSON, Ariz. (AP)—Christmas came late for Donald Ellison of Tucson. The 28-year-old airman spent 24 hours on a two-foot ledge, fighting off sleep so he wouldn't tumble into a canyon.

Ellison was rescued yesterday by a four-man team using ropes. After his leg muscles unknuckled, he was all right.

It all began when Ellison, his wife, and another couple drove into the rugged Catalina Mountains as their Christmas turkey simmered in the oven and went for a walk.

Ellison took a shortcut and suddenly found himself on a tiny ledge. A sheer rock wall led up to the base of the cliff.

Frozen with fear, he crouched down and faced the cliff.

"I didn't sleep. I caught myself dozing twice but got hold of myself before falling off. I was scared," he said.

Rescuers got close to Ellison early yesterday but couldn't get him off. Then two newspapermen, reporter Dean Pritchard and photographer Jack Sheaffer of the Arizona Daily Star in Tucson, got within 100 feet.

They shouted for help and two more men came. They lowered ropes and let Ellison down. His legs were so weak from crouching for 24 hours that they buckled under him.

After he worked out the stiffness Ellison said, "boy, will I love that walk back."

Keaton Improves

HOLLYWOOD (AP)—Buster Keaton the frozen-faced comedian who had been critically ill, recovered sufficiently to spend the Christmas holidays at home, Keaton, 59, was stricken with a gastro-intestinal ailment Dec. 6. He was in a semi-coma and near death for several days.

Baker County Wants Road Work

WAKERS (AP)—The Baker County Chamber of Commerce wants the State Highway Commission to improve the road from Robinette to Homestead and to keep it open during the winter months.

Expected increase in travel over the road during construction of Idaho Power Co. dams on the Snake River was the basis for the chamber's request.

William L. Jackson, chamber president, noted that when dam construction is at its peak there will be many times the number of people employed at the dam than at the present time.

Largest Cave Found In South

ATLANTA (AP)—Spelunkers—the explorers of caves—have discovered the world's largest known cave in Kentucky, with more than 32 miles of passages, the American Assn. for the Advancement of Science was told today.

It is the Floyd Collins' Crystal Cave, which actually turns out to be a nucleus of a cave system of record-breaking extent, said Roger W. Brucker and David B. Jones, Yellow Springs, Ohio; William T. Austin, Cave City, Ky. and Brother G. Nicholas, FSC, Cumberland, Md.

Exploration has uncovered many miles of cave passages, including connections between crystal cave and other nearby caves.

"Passages already surveyed or explored in the system now total 32 miles, making it the largest known," the explorers said, and there are probably yet undiscovered passages. The second largest cave is Holloch, in Switzerland.

The Floyd Collins Cave was named after a young explorer who was trapped in the cave—and died before rescuers could reach him.

Missing Pilot Found Safe

GRANTS PASS (AP)—Pilot Fred Hale, who disappeared Saturday on a flight up the Rogue River Valley, was located Monday at a resort lodge, near which his plane had crashed.

Bill Geer, a passenger in the missing plane, was located at his own lodge on Paradise Bar where Hale had dropped him off prior to the crash.

Hale was injured in the crash near the Black Bar lodge and was being cared for by two lodge custodians who had pulled him from his wrecked plane.

Extent of his injuries was not determined immediately. However, a message was radioed to Hale's wife that he was not badly hurt.

He was located at the lodge by Glenn Woodridge, Rogue River boatman, who had been searching the river since the two men were reported overdue on a flight to make aerial photographs of Geer's flooded lodge. Hale, a veteran pilot, is manager of the Grants Pass airport.

Woman Thankful

SHAWNEE, Okla. (AP)—A Shawnee woman was thankful today for the detective work of postal officials in San Francisco. A Christmas package was mailed from the California city but the address was so mutilated that only two words were legible—"Dovie" and "Shawnee." The postal workers made a few calls and the package finally arrived at its destination for Mrs. Dovie Wise of Shawnee, Okla.
